Buntings'

Nationally Known

AMBER GEM

A NEW CLINGSTONE DESIGNED FOR CANNING

Originated in New Jersey and found by the Michigan Experiment Station to be the most desirable Peach for commercial and home canning. Long, medium size, beautiful color; firm, yellow flesh. Early August.

BRACKETT. Large, late, deep yellow Peach, very highly flavored; freestone. Excellent for home use, and extensively planted in commercial orchards.

Buntings' Healthy, Well-Grown Vigorous Trees are Worth More

Quality in Peach trees is not a mere matter of the size of the trees at the time of purchase. It includes the horticultural skill, knowledge, care and personal integrity actually employed from the securing of the Peach seed to the delivery of the stock.

Tried and Tested in Our Own Orchards

Considering our long experience in Peach tree production, the knowledge we have obtained in watching the trees in our bearing commercial orchards, it is our belief that you cannot buy better Peach trees anywhere in the country regardless of price.

CARMAN. A very hardy, semi-freestone Peach, ripening about the middle of July; skin pale yellow with blush on sunny side; flesh white, tender, sweet and melting. Ships well. Best early market Peach.

CRAWFORD'S EARLY. Freestone. Large, oblong, yellow with deep red cheek; flesh yellow, juicy and rich, excellent flavor. August 1st to 15th.

CRAWFORD'S LATE. Ripens after Elberta. Freestone. High quality and very large; flesh deep yellow; skin yellow with broad, dark red cheek.

GAGE ELBERTA. Ripens two to three days later than Elberta, and fruit is so similar that only an expert can distinguish the difference. A disease-resistant bud sport of the famous Elberta.

GREENSBORO. Semi-cling. Ripens from June 25th to July 10th. Large, white with red cheek. Flesh white, rich, juicy. Tree a strong grower.

J. H. HALE. Freestone. One of the best sorts for market or garden. Fruit is very large, round, yellow, sweet and melting; quality excellent. Skin yellow, finely colored. Ripens just before the Elberta. A very good one.

See page 3 for prices.

CHECK
THESE
MATCHLESS
FEATURES

A Grand Peach—the most promising, new, early yellow variety for either home use or commercial markets.

1. Extra Early—
Ripens a month before Elberta.
2. Brilliant Color—
Reddens before it ripens.
3. Fine Flavor—
Sweet, juicy, fine textured.
4. Good Shipper—
Firm flesh and tough skin.

A profitable commercial variety and excellent for home use where a good quality early yellow Peach is desired.

See page 3 for prices. Buntings' offer both Redhaven and O'Boy at regular Peach tree prices.

Perfect freestone, medium to large in size, flesh yellow, fine textured, sweet and of good quality. Smooth skin, almost fuzzless; brilliant red color, with creamy yellow background. Bears heavy crops. Originated at the Michigan Experimental Station in 1930, and has since been thoroughly tested.

PEACH TREES

*Planted Extensively
from Coast to Coast*

O'Boy!

THE PERFECT PEACH

If you are looking for the largest, richest, most beautiful Peach in the world, here it is! Everyone who sees it exclaims in wonder, "O'Boy, what a perfect Peach." So it was named O'Boy. It is round and uniformly shaped. Skin glowing orange, blushed all over with rich, dark red, even before ripe. Flesh rich orange, bright red around the pit. The red color is retained in the canned fruit and juice.

Firm of flesh and skin. You'll want to can them exclusively for your fancy table use. Perfectly freestone and self-pollenizing. Bear heavily when three years old. Don't fail to plant O'Boy this spring.

RIPENING ORDER OF PEACHES

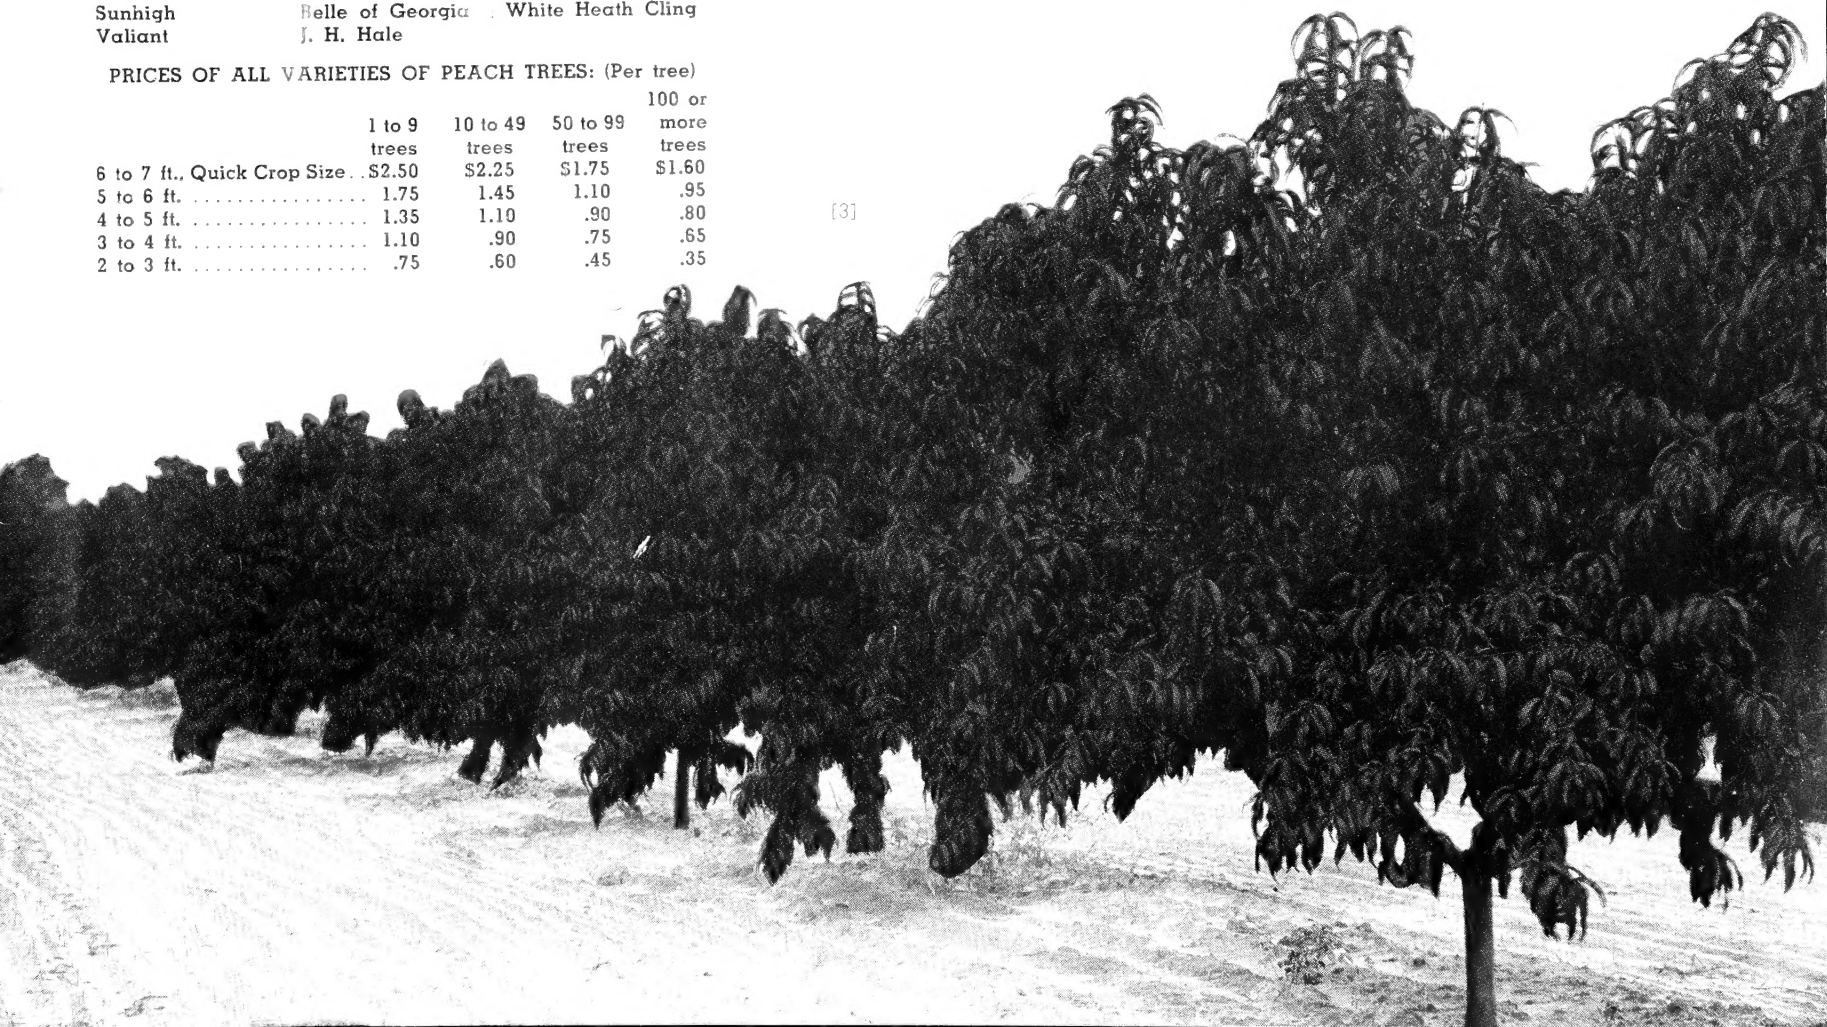

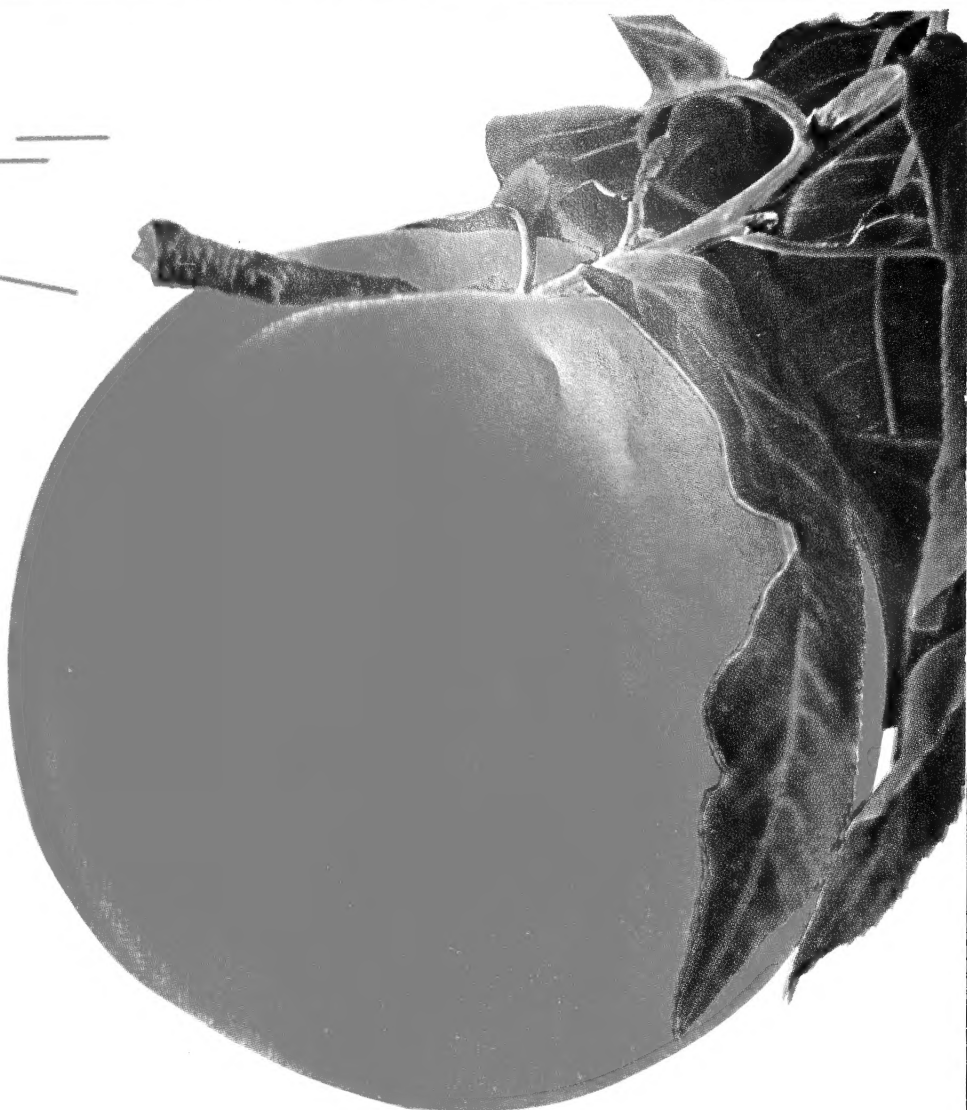

Use this list for selecting varieties to provide you with fruit throughout the season. Varieties are listed in their order of ripening, from the very earliest to the latest.

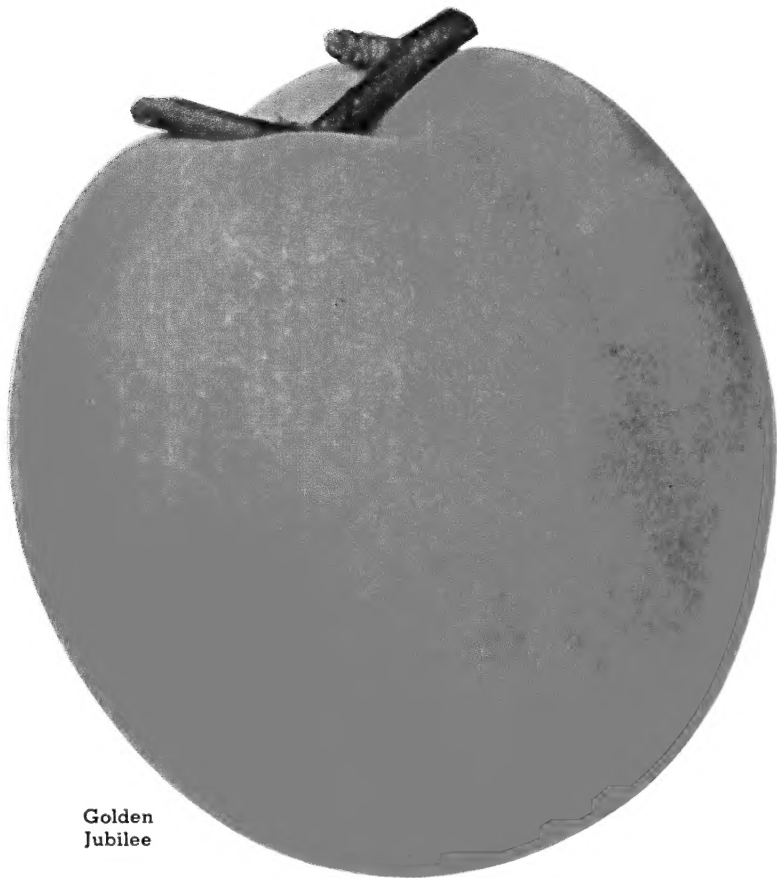

Greensboro	Goldeneast	White Hale
Carman	Hale-Haven	Elberta
Triogem	Amber Gem	Gage Elberta
Redhaven	Crawford's Early	O'Boy
Golden Jubilee	Sullivan's	Crawford's Late
Rochester	Early Elberta	Shippers Late Red
Vedette	Summercrest	Brackett
Sunhigh	Belle of Georgia	White Heath Cling
Valiant	J. H. Hale	

PRICES OF ALL VARIETIES OF PEACH TREES: (Per tree)

	1 to 9 trees	10 to 49 trees	50 to 99 trees	100 or more trees

Golden
Jubilee

GROWING QUALITY FRUIT TREES

Does not "just happen," it requires the careful vigilance of a well trained horticultural staff constantly striving for improvement which goes on from one generation to another.

Golden Jubilee

THE "BEAU BRUMMEL" OF PEACHES

Unusually hardy, resists excessive cold; a sure cropper after severe winters and heavy frosts. Medium to large in size, ripens almost four weeks ahead of Elberta, and considered to be one of the best early ripening varieties. Fine flavor, yellow freestone, attractive color and fine texture. Profitable for market, excellent for home use.

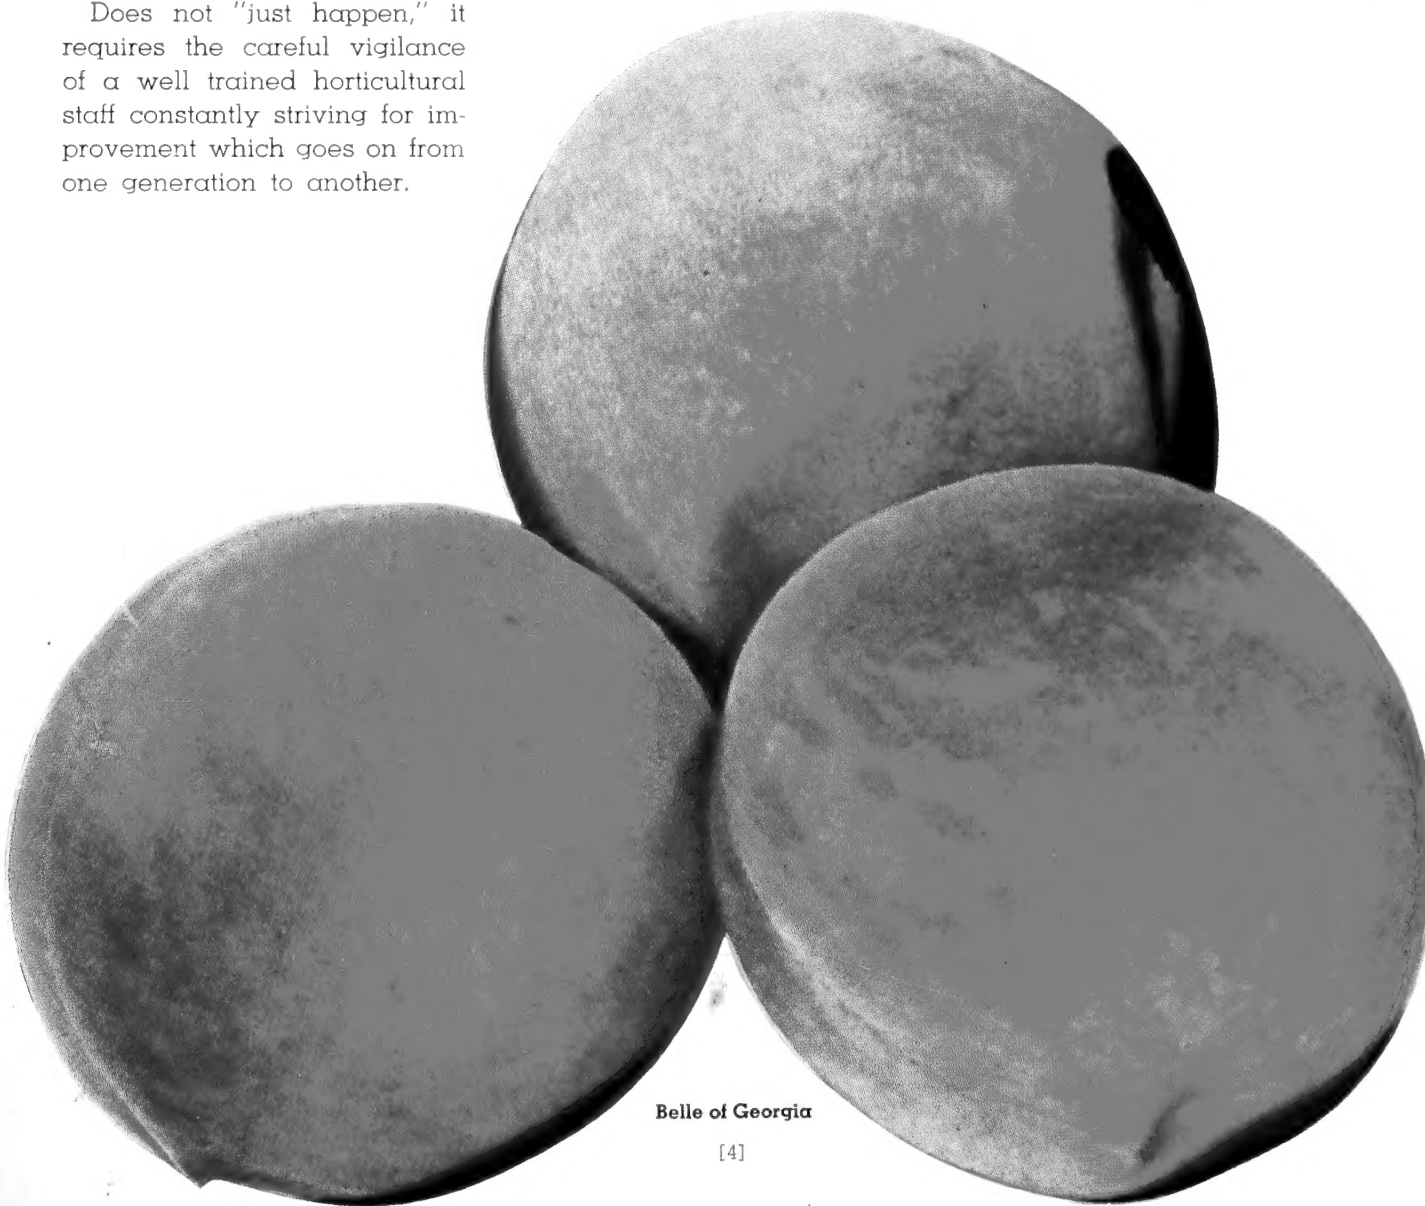

Belle of Georgia

A POPULAR WHITE PEACH

Large, attractive, white Peach with red cheek. Delicious flavor; one of the best market varieties. Very hardy, easy to grow. Home canners prefer Belle, and for some time it has been recognized as the best all-around white Peach on the market.

Belle ripens midseason; large size, freestone. The best white Peach of its season.

See page 3 for prices.

Belle of Georgia

**Buntings'
Whole-Root
Trees—
Strong
Specimens,
Well Rooted,
Ready to
Transplant**

Everyone is familiar with the old reliable Elberta. Its attractive appearance, large size, uniformly shaped fruits are well known throughout the world. Universally planted—Elberta leads all other Peaches in number of trees producing fruit. Most popular Peach on the market. Ripens midseason, roundish with a pointed tip, thick skin; flesh yellow stained pink near the pit; juicy, firm but tender, good quality freestone. **See page 3 for prices.**

HALE-HAVEN

**A Premium Peach for Every Commercial Orchard
Ripens Two Weeks Before Elberta**

Steadily gaining favor, because of its size, color, good shipping qualities and hardiness in bud.

This marvelous new Peach, an introduction of the Michigan State Experiment Station, is a cross between the famous South Haven and J. H. Hale. It's an aristocrat of the first order.

Extremely high color before ripening; withstands cold temperatures; very hardy; heavy bearer. A perfect freestone; yellow fleshed.

ROCHESTER. Has the habits and characteristics of the Crawford, but fully two weeks earlier. Yellow; freestone; good size; very sweet, fine flavor. Requires only half the usual amount of sugar for canning. Ripens middle of July.

SHIPPERS LATE RED. Follows Elberta in ripening. Skin yellow with attractive red coloring. Flesh yellow, juicy, sweet, pleasing flavor. Bears young; good late commercial variety. Freestone.

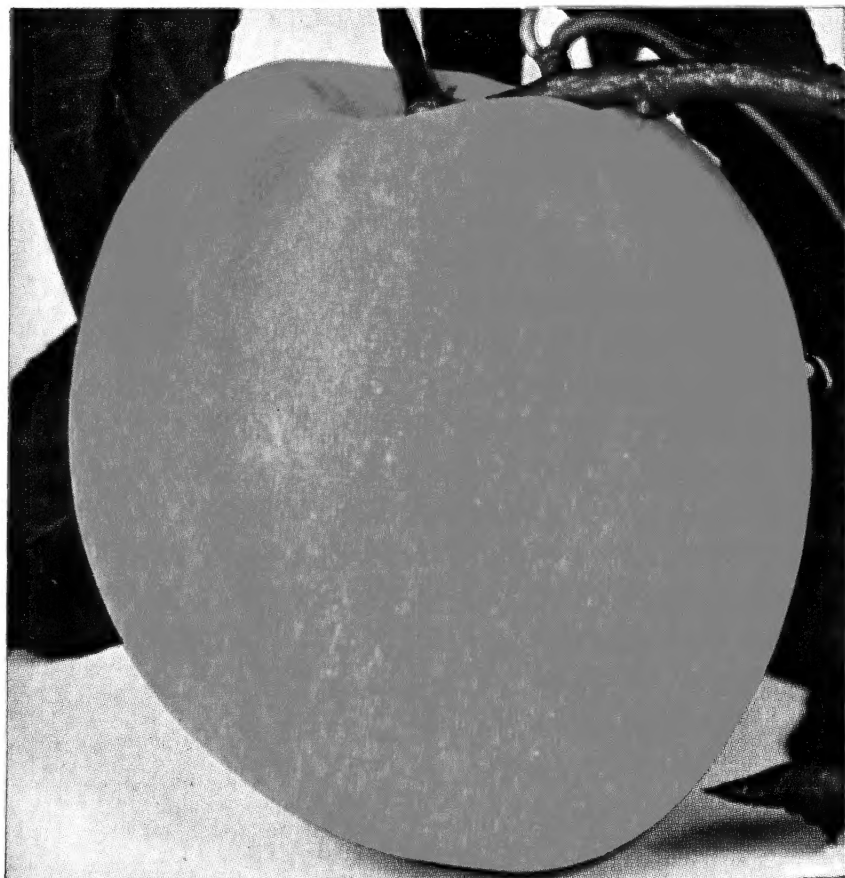

SULLIVAN'S EARLY ELBERTA. An early ripening bud sport of Elberta. Size, color and shipping qualities identical with Elberta, but ripens about ten days earlier. A splendid all-purpose Peach.

Elberta

SUMMERCREST (N. J. 94). A large, oval, yellow fleshed freestone of high quality, ripening just before Elberta. A popular home canning Peach. Tree is vigorous and hardy. An excellent variety to precede Elberta.

SUNHIGH (N. J. 82). A large, firm, attractive yellow-fleshed Peach of good quality, ripening a few days earlier than Goldencrest. Generally it is a freestone, but sometimes the firm flesh adheres slightly to the pit when the fruit is hard ripe. A popular variety to precede Goldencrest.

Goldeneast

Goldeneast

(N. J. 88) Early Midseason

Ripens about fifteen days earlier than Elberta. A large, oval, firm, highly colored, yellow-fleshed freestone Peach, rapidly gaining popularity with commercial growers. Originated at the New Jersey Experimental Station. An excellent variety for shipping or for home use.

TRIOGEM (N. J. 70). An early, oval, red all over, firm, yellow freestone Peach of excellent quality. Ripens two or three days earlier than Golden Jubilee.

VALIANT. Freestone. Fruit large, yellow blushed with red, with firm, juicy flesh of very good quality. Ripens about two weeks ahead of Elberta.

VEDETTE. Freestone. Ripens a few days before Valiant. Fruit is large, roundish oval, yellow flesh. Ripens three weeks before Elberta.

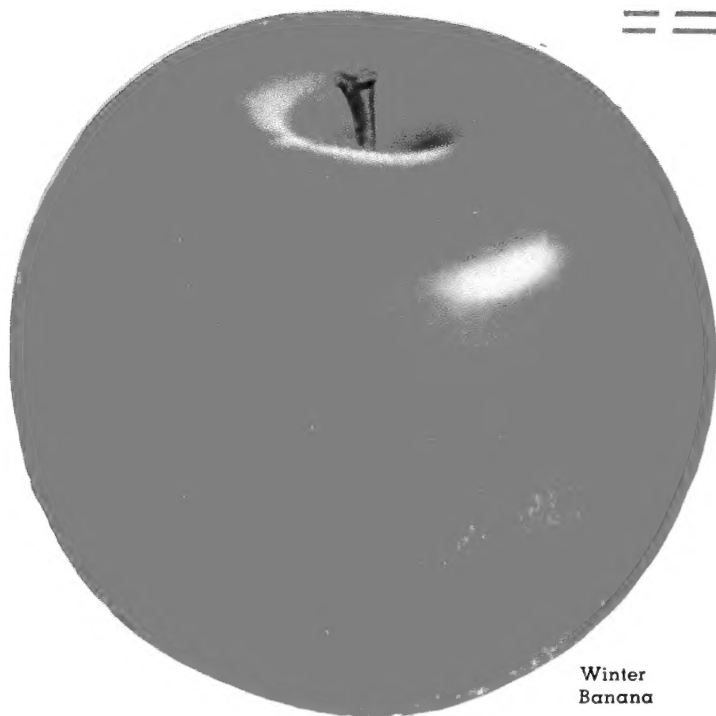

WHITE HALE. An extremely large, white, freestone Peach, with excellent flavor. Very hardy, and especially recommended for home use or nearby markets.

WHITE HEATH CLING. Ripens September 10th to 15th. Fruit extra large, roundish; flesh white, exceedingly juicy.

See page 3 for prices.

APPLES

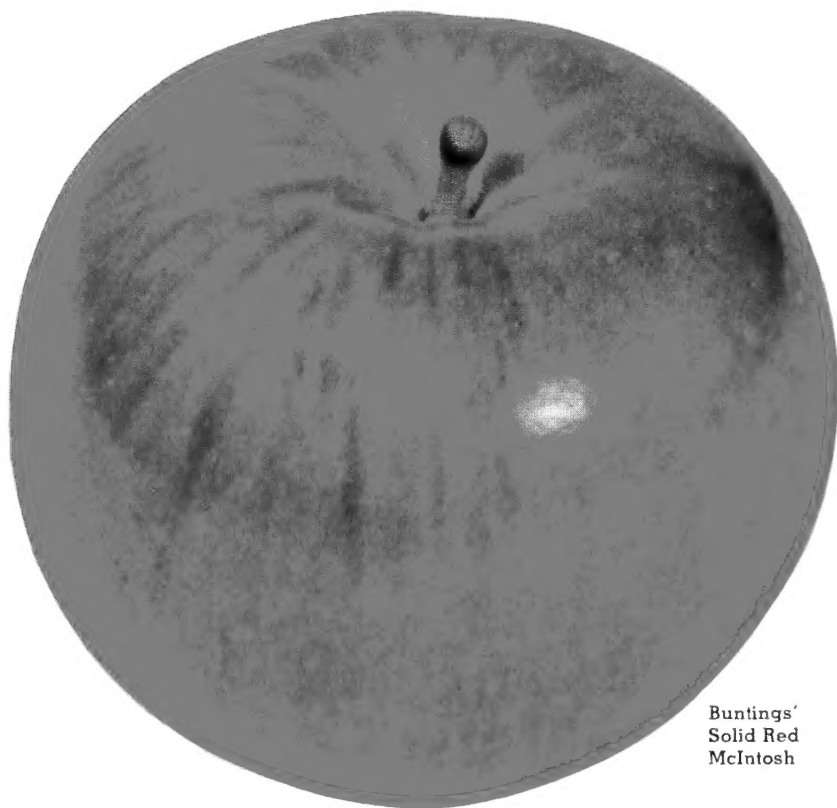

Best Producing Strains—For Commercial Growers

Winter
Banana

Winter Banana

Large, handsome, distinct banana flavor and aroma. A good winter variety for home use. Some commercial demand.

Buntings'
Solid Red
McIntosh

Anoka

A summer Apple, ripening just after Transparent. It often produces fruit the second year after planting, and for that reason is called the "Old Folks' Apple." More particularly adapted for the northern and central states. Attractive red striped fruit of good quality.

Solid Red McIntosh

A selected bright red sport of the reliable old McIntosh. Flesh white, tender, juicy, sub-acid. Tree hardy, vigorous and healthy.

Solid Red Delicious

The leader of all red Apples. Our own selected sport of this famous variety. An excellent Apple for either home use or market. Same characteristics as its parent, except for its double-red color three weeks earlier.

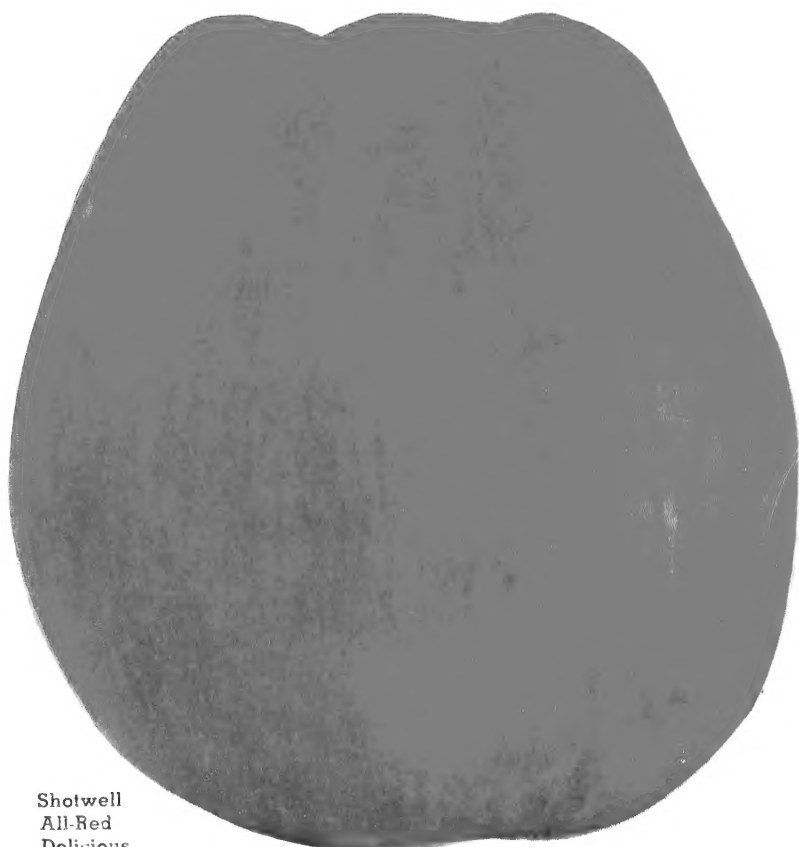

Double
Crimson-Red
Large Size

This improved new Red Delicious colors a very rich red three to four days in advance of any other strain of Delicious Apples.

Shotwell Delicious is not only a commercial Apple, but it is every bit as well adapted to home gardens.

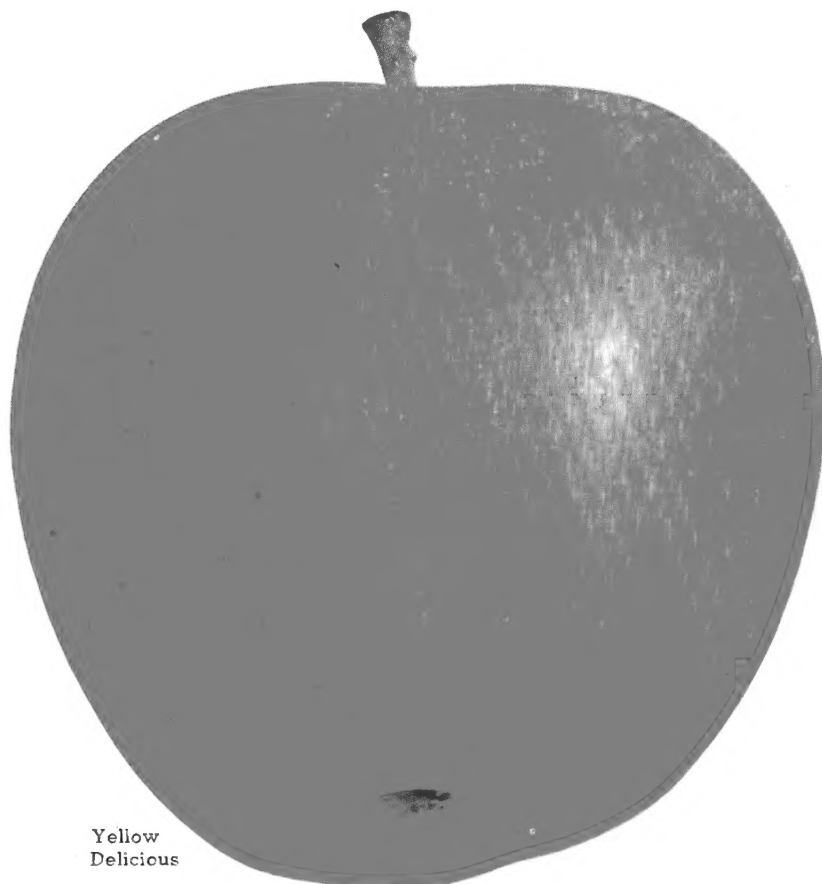

A superior, large, uniform Apple, rich in flavor, with a characteristic five-knob appearance that makes it attractive in every market.

Shotwell
All-Red
Delicious

Apple Tree Prices (Per Tree)

2-yr., 3 to 4 ft.	1.10	.90	.75	.65

Yellow
Delicious

Yellow Delicious

This alluring Apple with the strong appetite appeal never fails to capture the elusive nickel on the fruit stands. It is a national favorite, commanding highest prices on the market. A bright golden yellow, firm, crisp, juicy Apple. Tree bears when young, and yields heavily.

Yellow Transparent

Fruit medium to large, with a brilliant waxy skin; flesh is tender, crisp, and juicy; color yellow. Ripens in July.

Double Red Stayman Winesap

Carries at least double the color of the original strain of Stayman Winesap, otherwise exactly the same in growth, hardiness, etc. We have discontinued propagating in our nurseries, also growing in our orchards, the regular variety of Stayman's Winesap, in view of the fact that we get the same quality in Double Red Stayman with double the color which sells the fruit for more money.

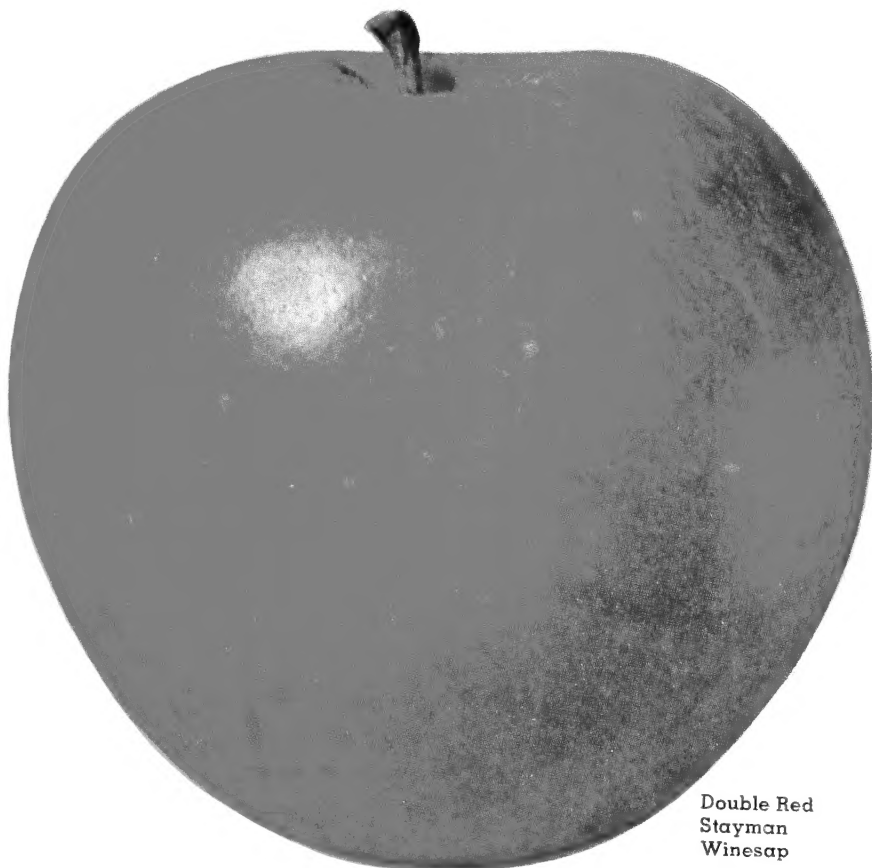

Red Yorking

Orchardists HERE'S THE APPLE
THAT WILL MAKE HISTORY

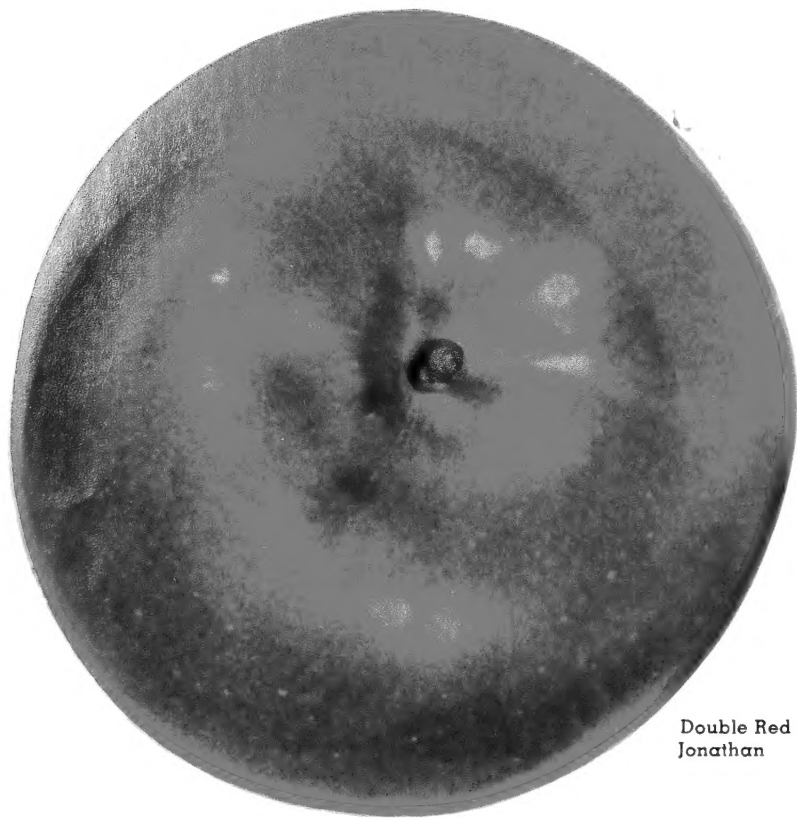

REDYORKING
TRADE MARK REG.

U. S. Plant Patent No. 125

A sport from its famous daddy, York Imperial. It has the same fine and dependable qualities except that its skin is thicker, does not scald in storage, and it ripens to a solid cherry-red color. Shows color five weeks earlier than regular York. An excellent shipping Apple. Plant these early coloring Red Yorkings and get into the market with a sure profit-making new variety that finds a ready sale.

Double Red
Stayman
Winesap

Double Red
Jonathan

Double Red Jonathan

Insure your profits from Jonathan by planting this new red sport that will give you bright red colored fruit about two weeks earlier. Fruit medium to large, brilliant red, juicy, fine grain, tender and very highly flavored.

Bears young; produces heavy crops every year.

Grimes Golden

Very large, skin golden yellow, flesh tender and crisp. A very good fall Apple. Grown in all sections of the country.

Red Northern Spy

Flesh juicy, rich, crisp, aromatic, a good flavor. Our own selected sport of this popular Northern Apple.

Rhode Island Greening

Rich acid flavor, tender and juicy; yellow in color, sometimes having a red cheek. Very delicious.

Solid Red Rome

A brilliant, solid red that produces over 50 per cent more extra fancy Apples for color grade than common Rome Beauty. A beautiful Apple, identical in quality, productiveness and other characteristics with the regular Rome Beauty, except for a greatly superior color.

Double Red Gravenstein

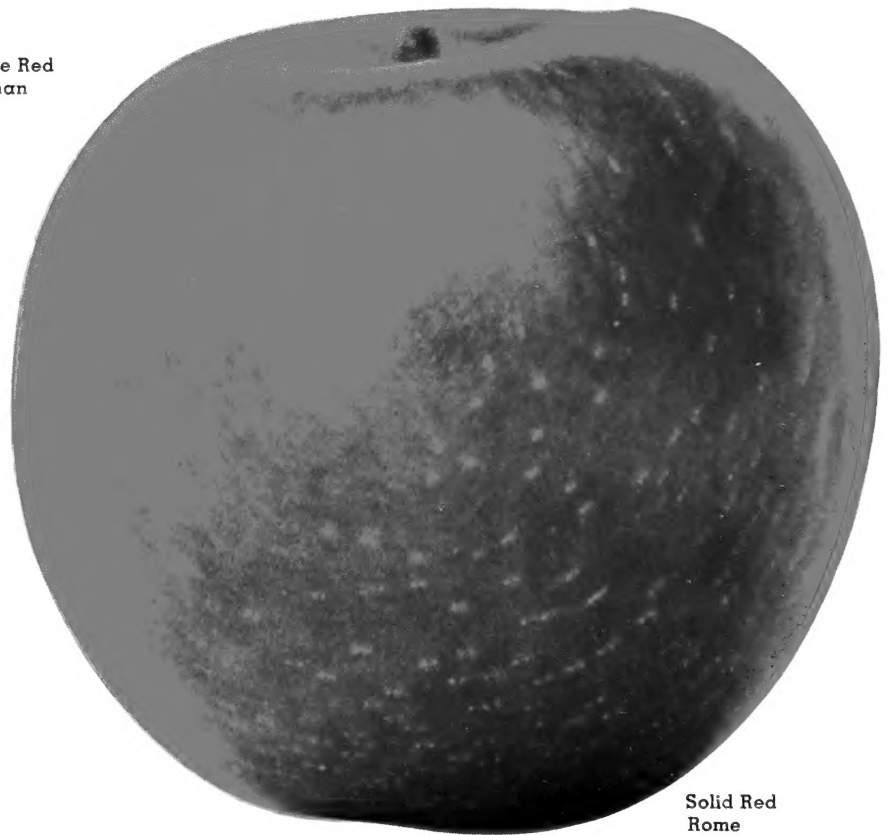

Flesh yellowish, acid, aromatic. Much better color than the original Gravenstein.

CRAB APPLES

Hyslop

Large, handsome, crimson, splashed with dark red. Very prolific.

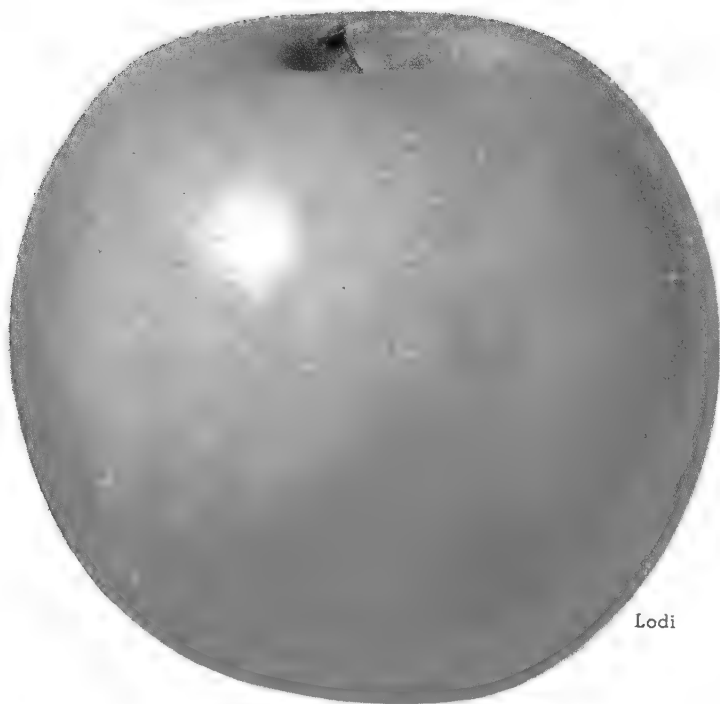

See page 7 for prices.

Solid Red
Rome

Two-Year-Old Apple Trees Growing in Our Nurseries

Lodi

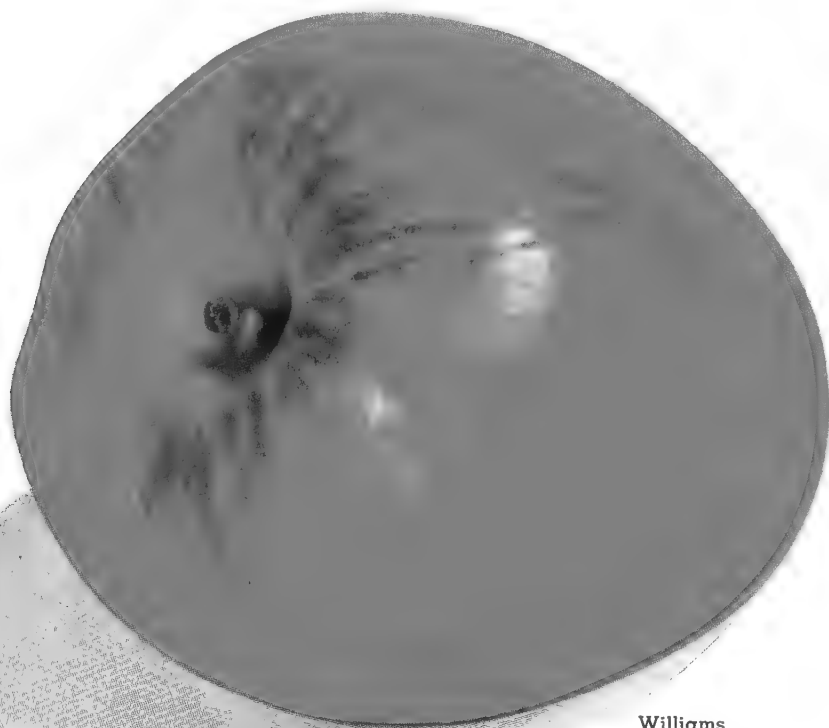

Improved Yellow Transparent (Lodi)

Originated by the New York Experiment Station. After being tested commercially over quite a large area, it is now rapidly gaining popularity. A summer Apple ripening about the same time as regular Transparent; however, much larger and more firm than Transparent. Fruit good size, skin clear, white to pale yellow in color. Flavor very good. An excellent cooking Apple. Tree a very strong grower.

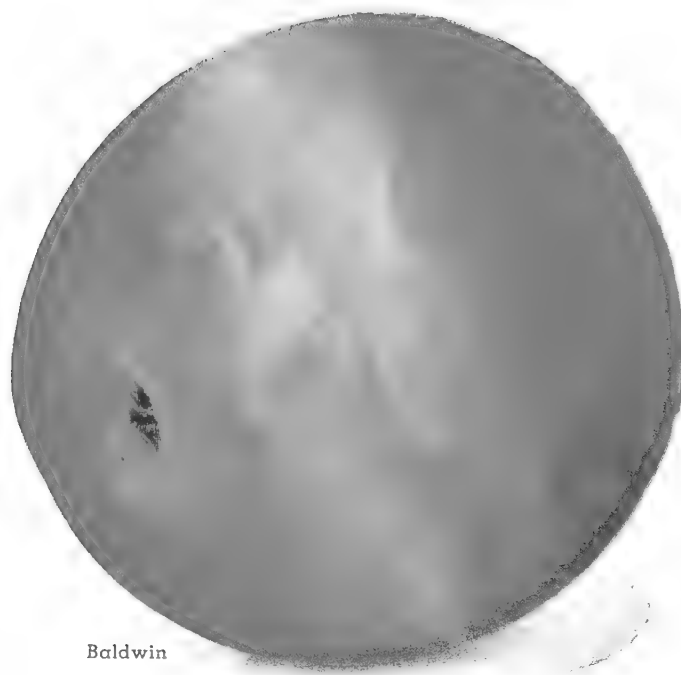

See page 7 for prices.

Williams Early Red

Among the earliest to ripen, and the largest of all early Apples. The trees come into bearing when quite young, producing freely and steadily. The Apple is large, with tender, crisp, white flesh, juicy and slightly tart. This big red Apple hits the market at a time when people are hungry for fresh fruit. Recommended for both home use and commercial markets.

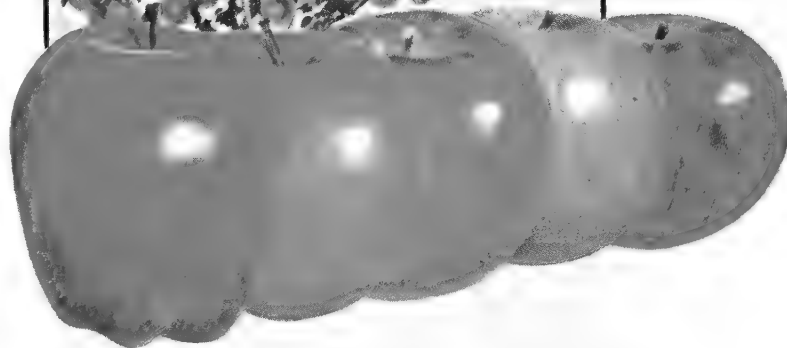

Williams
Early Red

Baldwin

Baldwin

For many years Baldwin has been a favorite with commercial orchardists for their northern markets. Highly regarded as an eating and cooking Apple, having a flavor all its own. A heavy yielder and an excellent shipper. Fruit is large, bright red, crisp, juicy and rich.

Quintuplet Apple

**FIVE Leading Varieties
on ONE TREE**

The Famous "5-N-1"

Here's the opportunity for those with limited space to have five mighty desirable varieties of Apples, all budded on one tree for a little more than the cost of one tree. Requires only a 25-foot space when fully grown. Each tree is budded to Yellow Transparent for first early, Anoka for second early, Red Jonathan, Red Delicious and Yellow Delicious for fall and winter.

Price: No. 1, 2-year-old trees, \$3.00 each.

RED PIE CHERRIES

The Universal Canning and Pie Cherry

These select record-breaking Montmorency trees develop into uniform, shapely specimens bearing heavy crops of very large fruit.

Fruit large, firm, ships perfectly. Bears very young, produces tremendous money-making crops and is successful everywhere.

Fruit Growers Consider This the Finest Sour Cherry In Cultivation

Because of its distinctive acid flavor, delightful in pies and preserves.

ENGLISH MORELLO. Tree small, round-headed, with distinctly drooping branches. Fruit three-fourths of an inch in diameter, color dark red. Flavor tart, good quality; excellent for preserving and pies. Freestone. Ripens in July.

EARLY RICHMOND. A leading sour Cherry, used extensively by canners, excellent for pies and preserves. Tree medium size, dense, upright-spreading. Fruit three-fourths inch in diameter, color light red, fruit thin-skinned, freestone. Ripens in June.

PRICES OF PIE CHERRIES: (Per tree)

2 to 3 ft.	1.50	1.25	.90

Select Pear Trees

All Bunting Grown

Bartlett

Unexcelled for Canning, Pickling and Eating—It is the All-Around Favorite Pear

Bartlett, the standard on all markets. Large, rich golden yellow with red blush; juicy, melting, with rich indescribable flavor that has made it the most popular flavored Pear. An old favorite. August.

Clapp's Favorite

Summer. Fruit large, lemon color, spotted with brown dots; flesh fine, rich and sweet. A very good one. Early August.

Seckel For Pickling

Medium size, skin rich yellowish brown with deep brownish red cheek when fully ripe; flesh very fine grained, sweet, exceedingly juicy, melting, buttery. One of the richest and highest flavored Pears known. September.

Kieffer

Rich Golden Yellow. Widely Planted

Prolific. Abundant and regular bearer. Good shipper. Fruit large; yellow with red cheek. Will produce ten bushels of Pears to the tree when ten years old; begins fruiting successfully when three years old. October.

PRICES OF PEAR TREES: (Per tree)

	1 to 9 trees	10 to 49 trees	50 or more trees
5 to 6 ft.	\$2.10	\$1.70	\$1.20

Bartlett

SWEET CHERRY FAVORITES

GOVERNOR WOOD. Light yellow with red cheek; tender, rich, delicious; very fine; large, roundish. June.

NAPOLEON. Light lemon-yellow, tinged with red. Late June.

SCHMIDT'S BIGARREAU. Flesh tender, juicy, good flavor. Mahogany color. Middle of July.

YELLOW SPANISH. Ripens early in June. Fruit large, color yellow. Tree vigorous grower.

BLACK TARTARIAN →

The Best Sweet Cherry

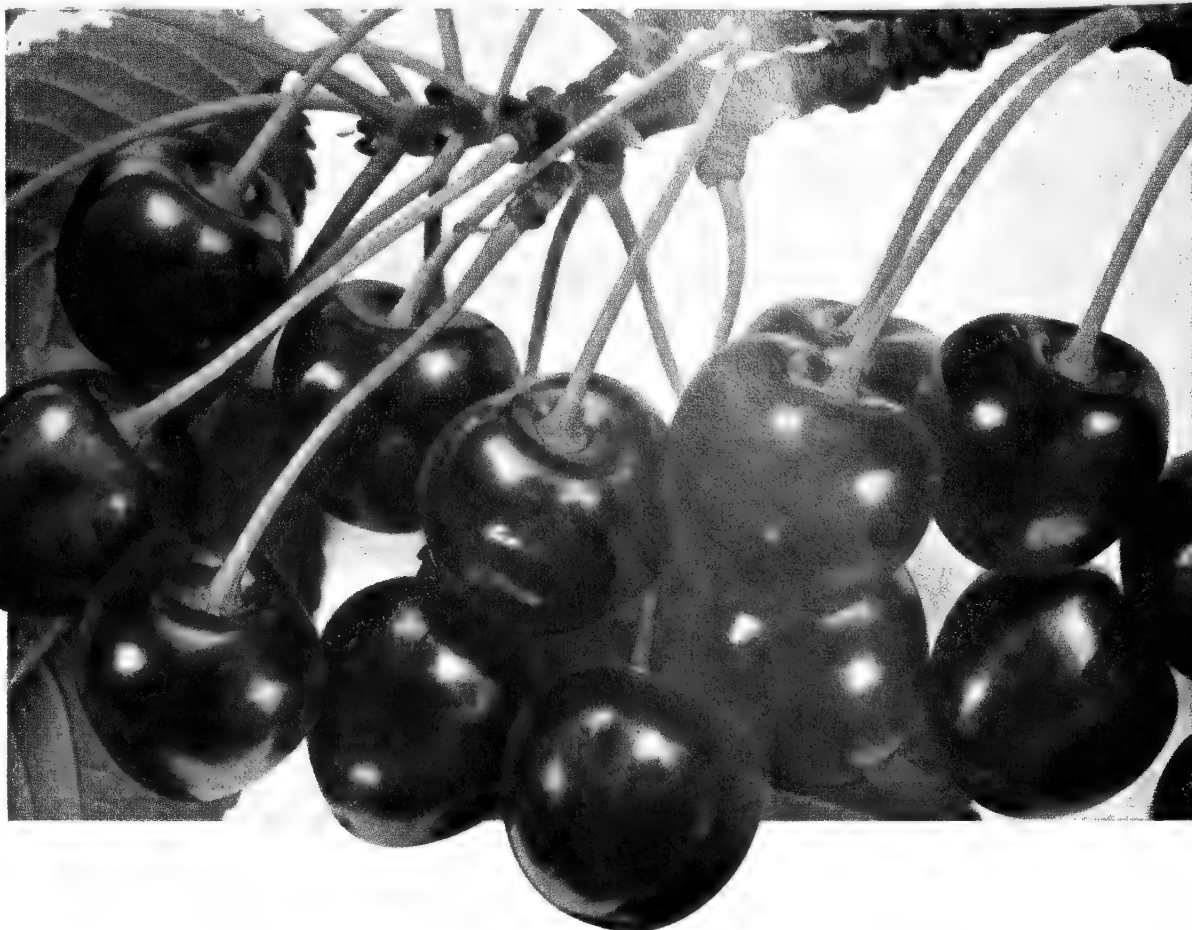

Here is the best, most dependable and widely successful of the sweet Cherries. Its great heart-shaped fruits (rich, dark purple hue) look irresistibly tempting. The sweet, mild flavor and rich tang have won it a nation-wide popularity both with commercial and home growers.

A Prime Market Favorite

For the big market trade hundreds of miles from orchards, the local fruit markets or fruit stands scattered all over the country, they offer a dependable yearly yield that is sure to bring profit to the grower.

PRICES OF SWEET CHERRIES: (Per tree)

	1 to 9 trees	10 to 49 trees	50 or more trees
5 to 6 ft.	\$2.50	\$2.10	\$1.65
4 to 5 ft.	2.15	1.75	1.40
3 to 4 ft.	1.75	1.45	1.15
2 to 3 ft.	1.40	1.20	1.00

LONG-LIVED PLUM TREES

Once planted . . . will live for years

ABUNDANCE. (Asiatic.) Fruit very large and showy; flesh light yellow, exceedingly juicy, tender and sweet. A good market variety. Ripens the first of August.

FELENBERG. (Italian Prune.) Flesh juicy and delicious. Dark purple with a dark blue bloom, medium size. September.

BURBANK. (Asiatic.) Fruit very large, dark violet-red; flesh juicy and pleasant. Ripens middle of August. Productive.

STANLEY PRUNE. Fruit large, dark blue; flesh greenish yellow, juicy, firm and sweet. Midseason.

IMPROVED SHROPSHIRE DAMSON. Medium size fruit, produced in thick clusters or groups. Tree a strong grower and very productive of dark purple colored Plums. October.

PRICES OF PLUM TREES: (Per tree)

4 to 5 ft.	\$1.80	\$1.50
5 to 6 ft.	2.10	1.70

HUNTER. Large, round, yellow freestone. The melting, juicy texture of the fruit, and its delicious flavor, furnishes one of the most delightful fruits for eating during the summer.

Champion Quince

QUINCE TREES

For Jelly, Jam and Marmalade

QUINCE PRICES (Per tree)

	1 to 9 trees	10 or more trees
3 to 4 ft.	\$1.70	\$1.40

CHAMPION. Tree strong grower; produces a good crop every year. Fruit is large and of good quality. Late.

BOURGEAT. Large, golden yellow, fine quality. Ripens soon after Orange.

ORANGE. Good size. Heavy bearer. Flesh yellow. October.

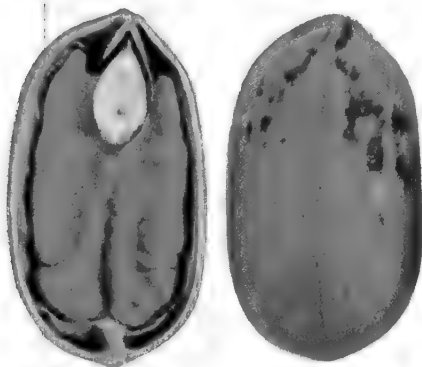

NUT TREES

Nut trees are valuable, useful and ornamental. No home should be without them. They are valuable as shade and ornamental trees, as well as for the nuts they produce.

PECAN. Strong grower. Very large, thin-shelled nuts, easily opened. Price: 3 to 4 ft., grafted, \$3.50 each.

CHINESE CHESTNUT. Blight-resistant trees that bear big, tasty Chestnuts the second or third year after planting. A beautiful ornamental tree. Plant in pairs for cross-pollination. Price: 2 to 3 ft., strong trees, \$2.00 each.

ENGLISH WANUT. A fine, lofty growing tree with handsome spreading head. Very hardy, will stand extreme cold. Produces abundantly. Price: 3 to 4 ft., grafted trees, \$3.50 each.

HORSERADISH

MALINER KREN. Very hardy, and thrives best in cool, moist earth, but will thrive well on any soil that produces crops of any kind. Plants are vigorous, and roots grow to a large size. Price: 1-yr., No. 1 plants, 10 for \$1.50; 25 for \$3.00; 100 for \$10.00.

**BLACK
BERRIES**

**HARDY
VIGOROUS
DEPENDABLE**

Increase your profit! One acre of Blackberries will average 800 to 2000 quarts, and prices on this fruit are always high. Plant Blackberries along trenches and the lot lines, and turn waste garden space into profit. Excellent for home and market use.

BLACKBERRY PRICES

No. 1 plants: 10 for \$1.80; 25 for \$3.30; 50 for \$5.70; 100 for \$9.90.

BLOWERS

Buntings' plants are the heaviest fruiting and best Blackberries in the world. Very hardy, the berries are sweet and delicious, jet-black color, good shippers, ripen in July.

ELDORADO

Another fine quality Blackberry. Plants are vigorous and seldom fail to produce a bumper crop. Commercial growers like their shipping qualities.

FIELD CULTURE—BLACKBERRIES AND DEWBERRIES

Plant in rows 7 feet apart with plants set 4 feet apart in the rows (1,555 plants to set an acre at given distances).

Plow a furrow about 5 or 6 inches deep or dig holes 6 inches deep and 6 inches square. Spread roots, fill hole with soil; firm well. Cut stock after planting approximately 2 inches above ground level. Let them grow and the following spring cut the new growth back one-third, leaving two-thirds of the season's growth for production of berries. After fruiting cut all fruiting canes out and burn them. Cultivate occasionally and follow same procedure each year, allowing about 6 to 10 canes on each plant to stand for fruiting each season.

Buntings' Nurseries

**Selbyville,
Delaware**

Boysenberry

10 Plants for \$2.55

The biggest berry ever developed. Its size is unbelievable—two inches long is not unusual, three inches long not rare. Fifty of these plump, inch-thick marvels will fill a quart basket; a sight so remarkable people can't resist buying them! They are rare—they are unusual. The demand is so tremendous retailers can't get enough of them.

A cross between the California Loganberry, Raspberry and Blackberry. Just think of a berry that has a little of each of these fruits all in one giant, nearly seedless, beautiful wine colored berry, with a flavor that you will never forget. Get in on this wide-open market and make money.

Buntings' hardy No. 1, strong-rooted plants bear big crops the second year. Do not miss planting some Boysenberries in your garden this year. **Prices:** 3 for \$1.15; 6 for \$2.05; 10 for \$2.55; 25 for \$4.65; 100 for \$14.05; 250 for \$30.40; 500 for \$48.85; 1000 for \$85.00.

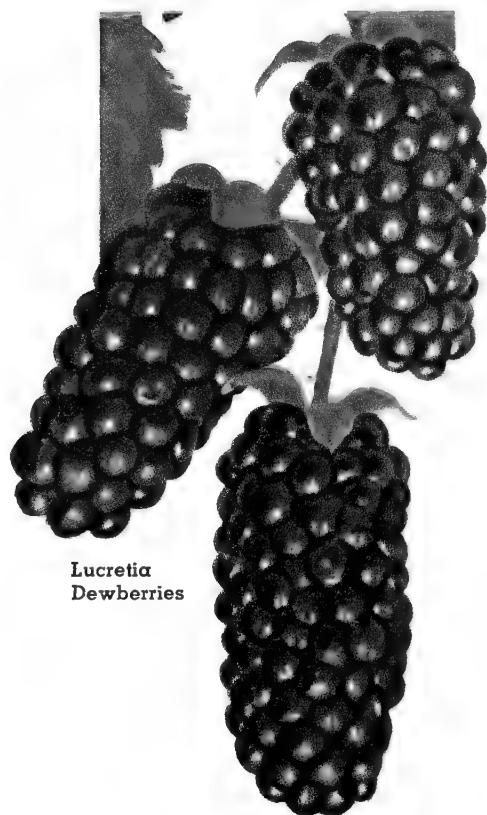

Dewberries

AUSTIN. Ripens before Lucretia. A valuable variety for table use. Fruit very large.

LUCRETIA. Extremely productive. Berries extra large, black in color; flavor rich, sweet and delicious.

DEWBERRY PRICES

No. 1 plants: 10 for \$1.50; 25 for \$2.75; 50 for \$4.75; 100 for \$8.25.

Lucretia
Dewberries

Boysenberry

Buntings' Remarkable Raspberries

Plant Buntings' Well Developed Raspberry Bushes That are Noted for Their Splendid Root System

You can make money with Raspberries because their delicate flavor won't keep, and the berries can't be shipped long distances. This gives you all the local market, with little competition from outside--and a chance to sell on a quality basis alone.

CUMBERLAND

The Black Raspberry

In blacks your best bet. Produces large, jet-black fruit, firm and of excellent quality; sweet and mild, ripening in midseason and continuing for two weeks. Extensively planted for commercial purposes and for table use. Fruit is large, plump and juicy, with a true "Blackcap flavor" all its own. Free from seedlings and crumbling, with extremely firm texture, which makes Cumberland an ideal shipper. No black Raspberry has ever been grown as extensively as Cumberland, nor attained its great popularity in all Raspberry producing sections of the country.

PRICE: (Cumberland Only)

1-yr., No. 1: 5 for \$1.20; 10 for \$1.80; 25 for \$3.30; 100 for \$10.00; 250 for \$21.40; 500 for \$34.50; 1000 for \$60.00.

Super Size: 5 for \$1.60; 10 for \$2.60; 25 for \$5.25; 100 for \$16.00.

Cumberland—
The Best Bet
in Blacks

SUNRISE

The earliest red Raspberry of them all. The bright red, round berries are juicy, have a delicious flavor and aroma, fine, firm texture. It combines the necessary characteristics of a successful berry; earliness and high quality of fruit, also hardiness and resistance to disease. Excellent for home use.

CHIEF

(Red.) Ripens ten days earlier than Latham. Very hardy, can be grown successfully in cold climates. Fruit is firm and of fine flavor. Unusually healthy and vigorous. Chief is mosaic-proof and will not take on mildew.

TAYLOR

This new red Raspberry promises to be the best of them all for New York and the northern states. Plants are vigorous, hardy, productive, tall growing, and increase rapidly. Sturdy canes hold the berries well off the ground. The berries, bright attractive red, are thick-fleshed, firm, and of excellent quality.

Newburgh

(Red.) Midseason. A new variety introduced by the New York Fruit Testing Association. Plant vigorous grower, branching more than most red varieties. Hardy, very productive. Fruit very large, firm. Does not crumble. Precedes Latham a few days in ripening. An excellent shipper and keeper.

ST. REGIS EVERBEARING

Ripens with the earliest and continues on young canes until autumn. Color red; flesh firm and meaty. Largely planted.

Sunrise—
The Earliest
of Them All

are Rapid Vigorous Growers

LATHAM

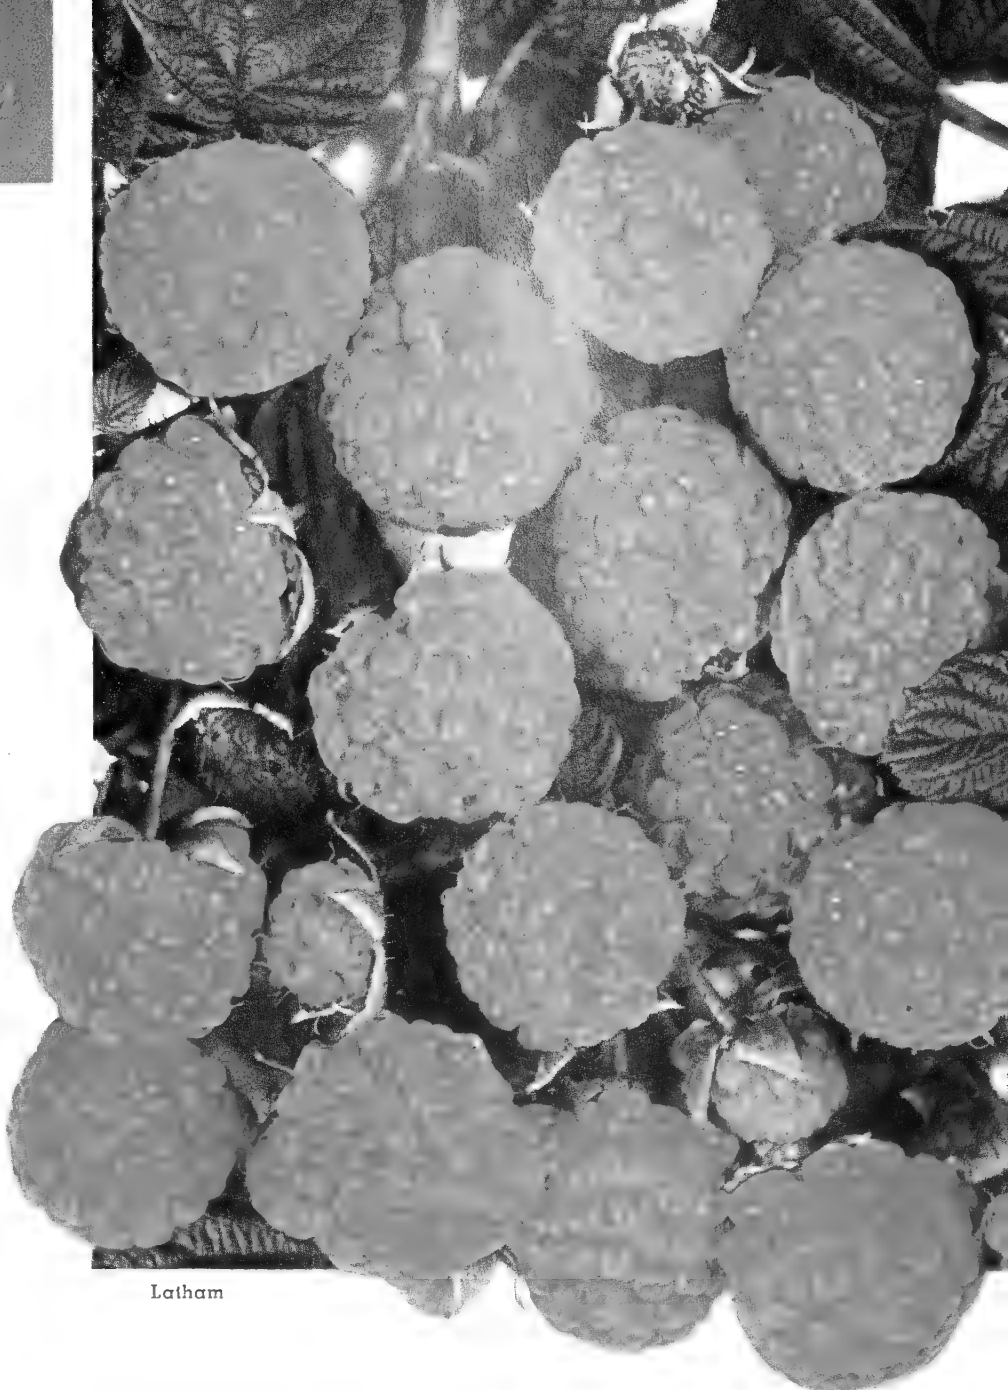

Latham is free from insects and diseases and multiplies rapidly. In the Northwest, the great berry-growing section of America, growers are quite enthusiastic over Latham and are planting it heavily each year. The most popular midseason to late red Raspberry grown today. Very hardy; cold weather seems to have no effect on its bearing ability. Large size, fine color; start ripening in midseason and continue an unbelievably long time. Plants are vigorous growers; mosaic free.

INDIAN SUMMER

Giant Red Everbearer

The best everbearing red Raspberry. Earliest to ripen; bears a full crop in June and an immense crop in the fall. A sensation because of its size, flavor, and unusual beauty. Wonderful keeping qualities. Berries are glossy red, conical in shape, and of extra large size. The greatest all-purpose Raspberry. The fall crops, when Raspberries are scarce and therefore highly priced, are heavier than the earlier ones.

Indian Summer—Giant Red Everbearer

Latham

How to Grow Raspberries Successfully

CULTURAL DIRECTIONS—RED RASPBERRIES

Two methods of culture are commonly used, the hill system and the solid row system. Under the first system plants are usually set five feet apart each way while under the second system they are set three feet apart in rows seven feet apart. Place plants in hole or furrow, spread roots, fill to ground level, and press soil firmly. After planting, cut all canes back to 2 to 3 inches above the ground level. The following spring, before growth starts, prune canes back to a length of about three feet. After fruiting season, cut out all fruiting canes and burn them to destroy any disease or insects. Future year's growth should be confined to six or eight strong canes to each plant, following same procedure year after year.

CULTURAL DIRECTIONS—BLACK RASPBERRIES

Two methods of culture are commonly used, the hill system and the solid row system. Under the first system plants are usually set six feet apart each way while under the second system they are set four feet apart in rows seven feet apart. Place plants in hole or furrow; spread roots, fill to ground level, and press soil firmly. After planting cut all canes back to two or three inches above the ground level. When new growth starts and has attained a height of 18 to 24 inches, it is best to pinch the tips of the canes which causes each cane to throw off branches and grow upright. All lateral branches should be cut back severely, leaving from 6 to 8 inches of cane. Weak spindling canes are cut out entirely. The following spring before growth starts, prune canes back to a length of about 3 feet. Cultivate Raspberries shallow during entire season but do not continue beyond picking season, as late growth will not mature sufficiently to withstand the winter.

A booklet containing complete planting and cultural directions for all trees and plants offered in this catalog will be included free with each order upon request.

**BUNTINGS' DIRECT-TO-YOU LOW PRICES.

Super Size: 5 for \$2.00; 10 for \$3.25; 25 for \$6.50; 100 for \$20.00.

STRAWBERRIES

Buntings' Productive Bay Shore Grown Plants

BIG JOE

Midseason. Ripens about three days before Gandy. Fruit is firm and of large size, good color and of a delicious flavor; no green tips; plants are strong growers and thrive on any soil that will produce Strawberries. **Price:** \$1.05 per 25; \$1.75 per 50; \$2.80 per 100; \$5.60 per 250; \$8.75 per 500; \$14.00 per 1000; \$65.00 per 5000.

CHESAPEAKE

Late. A market berry that withstands long hauls, maintaining its color and firmness. The berries are large and hold their size well to the end of the season. Chesapeake does best in fertile, moist land. **Price:** \$1.15 per 25; \$1.95 per 50; \$3.10 per 100; \$6.20 per 250; \$9.70 per 500; \$15.50 per 1000; \$72.50 per 5000.

GANDY

Late. Does best in springy land with some clay in its makeup. Fruit is large, firm and of fine flavor. A good long-distance shipper. **Price:** \$1.05 per 25; \$1.75 per 50; \$2.80 per 100; \$5.60 per 250; \$8.75 per 500; \$14.00 per 1000; \$65.00 per 5000.

GEMZATA

The new everbearing variety for the East. A cross between Gem and Wayzata, retaining the most desirable characteristics of each parent. Makes a good fruiting bed, and bears a good crop of berries in the fall when everyone is "Strawberry hungry." **Price:** \$1.90 per 25; \$3.15 per 50; \$5.00 per 100; \$10.00 per 250; \$15.65 per 500; \$25.00 per 1000; \$120.00 per 5000.

Fairpeake

FAIRPEAKE

A Leading Late Variety

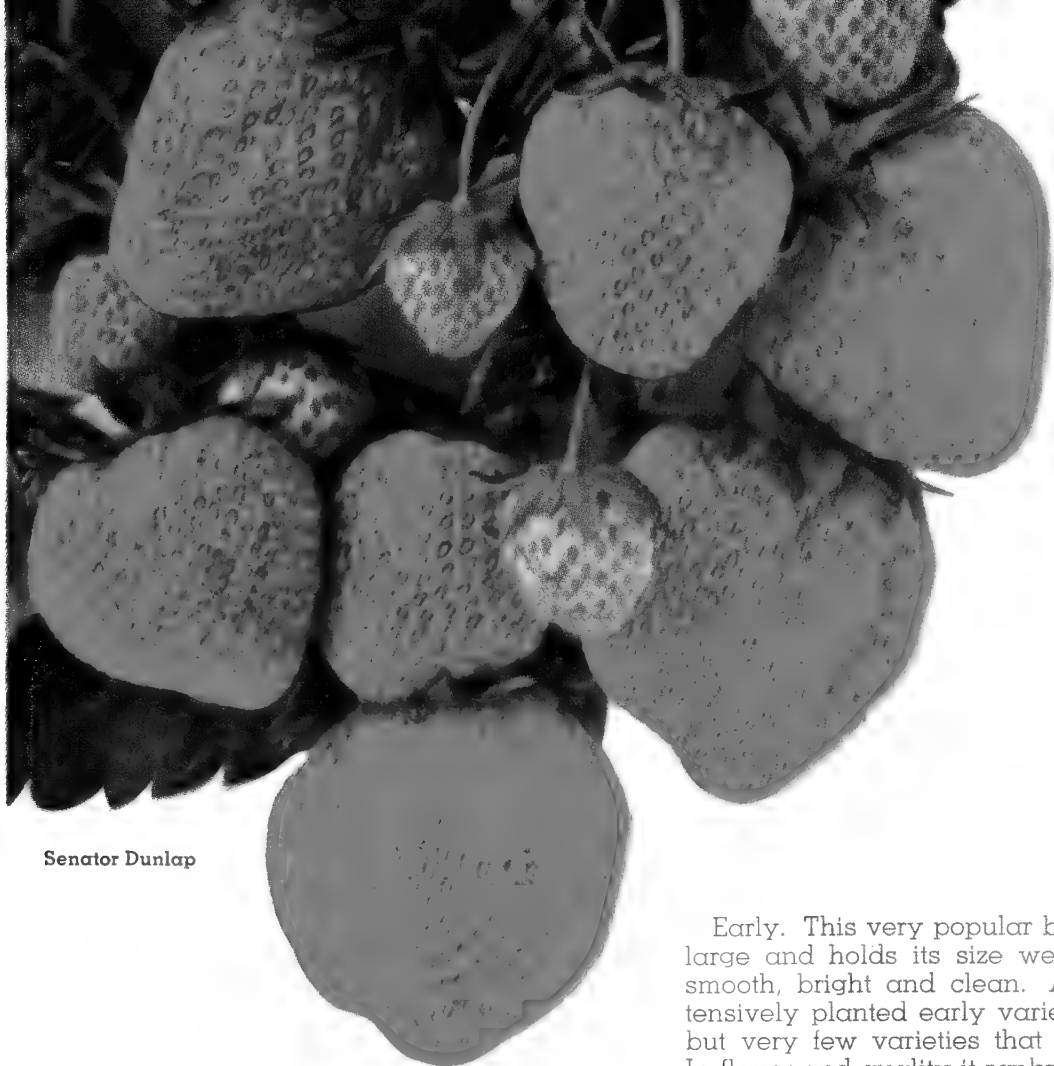

A cross between Chesapeake and Fairfax, the same parentage as Starbright. More productive, and ripens a few days later than Starbright. The flesh is firm, juicy, and red to the center. Quality of berries very high, fully as good as Dorsett or Fairfax at their best. We strongly recommend planting Fairpeake for either home use or market. **Price:** \$1.15 per 25; \$1.90 per 50; \$3.00 per 100; \$6.00 per 250; \$9.40 per 500; \$15.00 per 1000; \$70.00 per 5000.

Fairfax

FAIRFAX

Early. The quality berry. A favorite in quality, flavor and productiveness. Originated and introduced with Dorsett, now widely known and planted. The berries are exceptionally large all through the fruiting season, and very firm. Plant Fairfax for its superb flavor, large size and universal demand. **Price:** \$1.05 per 25; \$1.75 per 50; \$2.80 per 100; \$5.60 per 250; \$8.75 per 500; \$14.00 per 1000; \$65.00 per 5000.

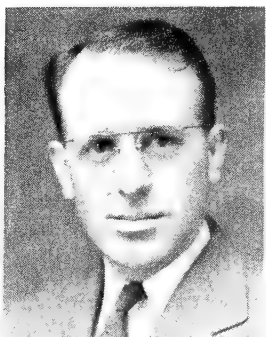

Senator Dunlap

SENATOR DUNLAP

Fruit is of good size and a beautiful bright red color, glossy and very firm. It is a splendid shipper and of excellent quality. It stands up well in dry weather and makes a good fruit bed under adverse weather conditions.

Price: 90c per 25; \$1.50 per 50; \$2.40 per 100; \$4.80 per 250; \$7.50 per 500; \$12.00 per 1000; \$55.00 per 5000.

Norman Bunting

The Strawberry Plant Man

It is generally conceded that Norman Bunting, a member of this firm, has for several years had under his direct supervision the growing, digging and shipping of more Strawberry plants than any other man in the country.

MASSEY

Late. Very firm, extremely large, bright red berries with a nice green cap. Makes a good fruiting bed. Plants are quite vigorous with good trailing stems, holding the berries up off the ground. Massey is now extensively planted in the leading commercial Strawberry sections. On our own farms here in Sussex County, Delaware, we consider it one of the best late midseason varieties. **Price:** 90c per 25; \$1.50 per 50; \$2.40 per 100; \$4.80 per 250; \$7.50 per 500; \$12.00 per 1000; \$55.00 per 5000.

SUWANEE

A new variety, just recently released by the U. S. Department of Agriculture, and particularly recommended for southern sections where Blakemore thrives. A splendid shipping berry. Makes a good fruiting bed. Very attractive, firm fruit of excellent quality. **Price:** 90c per 25; \$1.50 per 50; \$2.40 per 100; \$4.80 per 250; \$7.50 per 500; \$12.00 per 1000; \$55.00 per 5000.

PREMIER

Early. This very popular berry has stood the test of many years. Fruit large and holds its size well throughout the ripening season. Foliage smooth, bright and clean. A good plant maker. One of the most extensively planted early varieties of Strawberries at this time. There are but very few varieties that have equalled Premier's production record. In flavor and quality it ranks with the best. Recommended for home use, local sales or commercial markets. **Price:** \$1.00 per 25; \$1.70 per 50; \$2.70 per 100; \$5.40 per 250; \$8.45 per 500; \$13.50 per 1000; \$62.50 per 5000.

Premier

QUALITY *is Never Sacrificed for* LOW PRICE

Robinson

DORSETT

Early. Its bright red color and rich, delicious flavor always bring top market prices. Ripening early, with Premier and Blakemore, this variety rapidly came to the top in favor, and is well known and widely planted. **Price: \$1.05 per 25; \$1.75 per 50; \$2.80 per 100; \$5.60 per 250; \$8.75 per 500; \$14.00 per 1000; \$65.00 per 5000.**

MIDLAND

Originated as a cross between Premier and Redheart. A comparatively new, early variety just recently released for introduction by the U. S. Department of Agriculture. Midland is a vigorous grower, making plenty of plants and large, strong ones. Fruit clusters are large, and the berries very large. A good shipper; and flesh is rich red and juicy, excellent quality. We endorse it as a leader among the early Strawberries; unexcelled for home freezing units. **Price: \$1.10 per 25; \$1.80 per 50; \$2.90 per 100; \$5.80 per 250; \$9.05 per 500; \$14.50 per 1000; \$67.50 per 5000.**

[18]

ROBINSON

Ripens just after Premier, at a time when berries bring a good price. Berries are large, brilliant red, uniform in size. **Price: 95c per 25; \$1.60 per 50; \$2.60 per 100; \$5.20 per 250; \$8.10 per 500; \$13.00 per 1000; \$60.00 per 5000.**

RED STAR

A comparatively new extremely late variety, originated by Dr. George Darrow of the U. S. Department of Agriculture. Very large, firm, bright red berries, with good flavor. Vigorous grower, very productive. Red Star is recommended for all the northern states. Red Star is really a great addition to the Strawberry variety list, filling a definite need for an extra late variety of very high quality. **Price: \$1.15 per 25; \$1.90 per 50; \$3.00 per 100; \$6.00 per 250; \$9.40 per 500; \$15.00 per 1000; \$70.00 per 5000.**

MISSIONARY

Has been extensively planted for commercial purposes in most sections of the country. Probably 95 per cent of the Strawberries grown in the state of Florida are of the variety Missionary. A strong grower and productive. The berries are well colored, firm, large, and hold their size well throughout the season. **Price: 90c per 25; \$1.50 per 50; \$2.40 per 100; \$4.80 per 250; \$7.50 per 500; \$12.00 per 1000; \$55.00 per 5000.**

SPARKLE

Originated by the New Jersey State Experimental Station. A vigorous grower and very productive. Berries are somewhat round in shape, of excellent quality and splendid for freezing. **Price: \$1.05 per 25; \$1.75 per 50; \$2.80 per 100; \$5.60 per 250; \$8.75 per 500; \$14.00 per 1000; \$65.00 per 5000.**

Growing Strawberries Profitably

Setting Plants

Clip the roots if they can't be planted without doubling. The plant should be set with the crown about even with the soil after it has been thoroughly firmed around the plant.

Type of Soil

Select a plot springy in nature but well drained and free of vegetation. Moisture is essential. The land which you contemplate setting to Strawberries should be kept as free from vegetation as possible during the previous year. If the land has been lying idle, plow late in the summer before the weeds and grass develop seed to maturity. Heavy crops of Cow Peas, Soy Beans, etc., if plowed under in late summer while green increase the humus and fertility of the soil, making it loose and porous; therefore, more retentive of moisture.

Soil Preparation and Fertilization

Prepare soil same as for truck or garden crops. Lay out rows, usually 3½ to 4 feet apart; set plants about 15 to 18 inches apart in the rows. Do not use

commercial fertilizer at the roots. If soil is fertile, we do not recommend using any type of fertilizer when planting. After the plants have been set in the row, a light application of fertilizer may be applied around the plant and worked into the soil with a hoe. Do not allow the fertilizer to fall on the leaves of the plants. During the growing season additional applications of fertilizer may be applied if the soil is not reasonably fertile.

The following spring after plants have been set, during the months of February or March, apply a good grade of commercial fertilizer carrying an analysis of 5 per cent ammonia, 6 to 8 per cent phosphoric acid and 10 per cent potash, broadcast on the row of the plants, at the rate of 15 to 20 pounds per hundred yards of row space.

Cultivation

Keep Rows Free of Vegetation.

As soon as the plants are set in the spring, cultivation should begin, and should be continued whenever weeds start or a crust forms. Frequent shallow cultivation will make it unnecessary to do much hand hoeing or hand weeding.

Planting Time

Northern States—April and May.

Central States—March and April.

Southern States—February and March.

Mulching

After the first freeze during fall months, wheat or rye straw may be applied over the rows of plants for winter protection. Early in the spring, before growth starts, it should be removed from the bed of plants and placed between the rows to retain moisture and keep berries clean.

BLAKEMORE

The Ideal Early Shipping Berry

We offer a special strain of Blakemore, free from yellows. A healthy plant that yields big crops of berries. Will stand two or three days without over-ripening. Foliage is healthy and stands up well during drought. Fruit is firm, of good color and unexcelled as a long-distance shipping berry. Ranks high in productiveness. To get all that you are entitled to from Blakemore, do not allow them to mat too thickly in the rows during the growing season.

Price: 90c per 25; \$1.50 per 50; \$2.40 per 100; \$4.80 per 250; \$7.50 per 500; \$12.00 per 1000; \$55.00 per 5000.

Buntings'

LEADER

BUNTINGS' STRAWBERRY PLANTS

Have stood the test for fifty years. Grown under the most favorable climatic conditions in the country. Carefully packed to reach you in good condition.

Starbright

STARBRIGHT

Medium early. Starbright is very similar in appearance to Fairfax—a little brighter red, and in quality it excels any variety that we have ever grown. This creation of Dr. Darrow of the U. S. Department of Agriculture is a medium early variety with a long fruiting season. It continues to produce extra large berries, uniform in size, until at least half the crop of late varieties has been harvested. Strong grower, leathery, dark glossy green foliage; unexcelled shipping qualities. **Price: \$1.15 per 25; \$1.90 per 50; \$3.00 per 100; \$6.00 per 250; \$9.40 per 500; \$15.00 per 1000; \$70.00 per 5000.**

The Great MASTODON

Any soil of high fertility will produce bumper crops of this outstanding ever-bearing variety. Mastodon is rightly named, because it exceeds them all in size and in number of berries per plant during the fruiting season, which extends from spring until late autumn. Delicious berries for home use. **Price: \$1.90 per 25; \$3.15 per 50; \$5.00 per 100; \$10.00 per 250; \$15.65 per 500; \$25.00 per 1000; \$120.00 per 5000.**

Catskill

CATSKILL

An Outstanding Midseason Variety Becoming More Popular Every Year

Originated in 1934 from a cross between Premier and Marshall. Produces large, strong plants; makes an ideal fruiting bed. The berries are large in size, bright red color. Equals Premier in flavor and carries a bright green cap. Firm enough to arrive on the market in excellent condition. It is considered almost frost-proof, and can be depended upon to produce annually bumper crops of fruit. **Price: \$1.10 per 25; \$1.80 per 50; \$2.90 per 100; \$5.80 per 250; \$9.05 per 500; \$14.50 per 1000; \$67.50 per 5000.**

RSHIP

in fine Big Rooted *Strawberries*

Mastodon

GEM

This variety is one of the greatest everbearers and should be planted as a companion with Mastodon. Berries are long and we find them to be as productive but not quite as large as Mastodon. They ripen evenly and are light red all the way through. Price: \$1.90 per 25; \$3.15 per 50; \$5.00 per 100; \$10.00 per 250; \$15.65 per 500; \$25.00 per 1000; \$120.00 per 5000.

AMBROSIA LATE

Considered by many to be the largest, latest and best late Strawberry introduced. The berries are very large, semi-pointed, rich, sparkling bright red, of delicious flavor. Ripens 3 weeks later than Premier, when other Strawberries are gone. It is self-pollenizing and extremely hardy. Fruit stems are very rigid and often attain a height of 6 inches. Berries develop in the shade of the leaves and off the ground, which assures clean fruit. Price: 90c per 25; \$1.50 per 50; \$2.40 per 100; \$4.80 per 250; \$7.50 per 500; \$12.00 per 1000; \$55.00 per 5000.

SOUTHLAND

Large, firm berries, very fine quality. Plants make a healthy, vigorous growth. Particularly recommended for the southern states. Price: \$1.05 per 25; \$1.75 per 50; \$2.80 per 100; \$5.60 per 250; \$8.75 per 500; \$14.00 per 1000; \$65.00 per 5000.

Ambrosia Late

2 New Introductions

Buntings' Offer Them as Worth-while Future Leaders

Temple

An exceptionally vigorous variety, making a dense bed of unusually tall plants. Quite productive, and nearly as early as Blakemore. Berries are large, blunt conic, smooth, uniform and have large, attractive caps. Good quality fruit; a choice of commercial cold packers of Strawberries. Introduced because of its resistance to diseases. **Price: 95c per 25; \$1.60 per 50; \$2.60 per 100; \$5.20 per 250; \$8.10 per 500; \$13.00 per 1000; \$60.00 per 5000.**

New Fairland

Fairland is the latest introduction of the U. S. Department of Agriculture, Beltsville, Maryland.

Fairland ripens early midseason, producing large, bright red, firm berries which carry to market in excellent condition and command premium prices. The berries ripen just a few days after Premier, at a time when there is good demand for quality fruit.

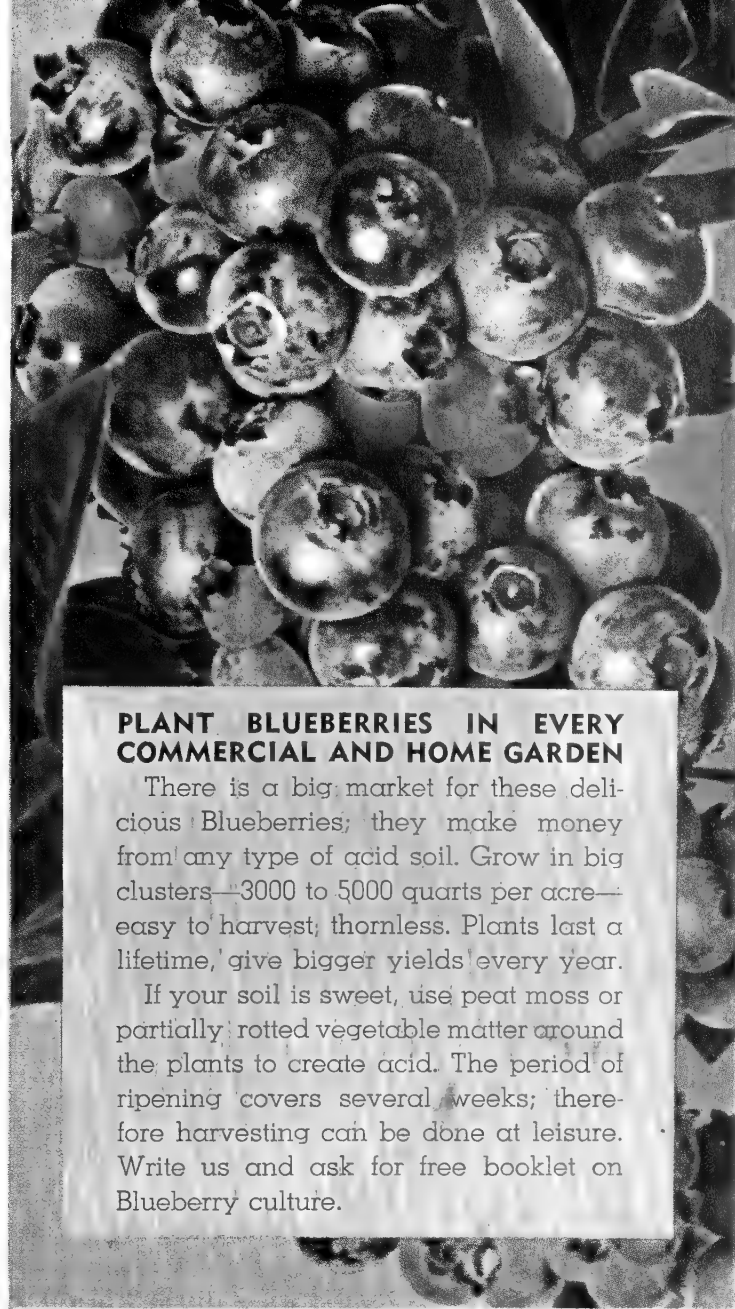

A vigorous grower, producing runner plants freely. The healthy foliage is usually free of leaf spot and scorch. Resistant to red stele root disease.

We have been growing Fairland several years under test in co-operation with the U. S. D. A., under No. 3205, but it was not named or released for distribution until late fall 1947. Wide tests have proven Fairland to be adaptable in all Premier growing areas, and more productive than Premier in many sections. Try some Fairland this season. **Price: \$1.15 per 25; \$1.90 per 50; \$3.00 per 100; \$6.00 per 250; \$9.40 per 500; \$15.00 per 1000; \$70.00 per 5000.**

New Fairland

A profitable yielder that is destined for Leadership in the Strawberry World

PLANT BLUEBERRIES IN EVERY COMMERCIAL AND HOME GARDEN

There is a big market for these delicious Blueberries; they make money from any type of acid soil. Grow in big clusters—3000 to 5000 quarts per acre—easy to harvest; thornless. Plants last a lifetime, give bigger yields every year.

If your soil is sweet, use peat moss or partially rotted vegetable matter around the plants to create acid. The period of ripening covers several weeks; therefore harvesting can be done at leisure. Write us and ask for free booklet on Blueberry culture.

USE TWO OR MORE VARIETIES TO CROSS-POLLENIZE FOR BEST RESULTS

Description of Varieties

CABOT. A very early variety. Plants seldom exceed three feet in height and make a broad low bush. The color of the new growth in winter is a light red over olive. The large berries have a delicious sub-acid flavor.

CONCORD. The bush is of upright habit and at maturity exceeds six feet in height. The young growth is bright red in winter. The berries are large, frequently reaching three-quarters of an inch in diameter. They usually ripen a few days earlier than Rubel and are very fine in flavor.

JERSEY. The bush is of vigorous habit and grows very large. The winter color of the young growth is a light red over golden brown. The berries are among the very largest, light blue and ripen about the same time as Rubel.

RANCOCAS. The bush of slender, vigorous, upright habit rarely surpasses five feet in height. The winter twigs are dark red. The berries are somewhat larger than those of Rubel and begin to ripen several days earlier.

RUBEL. A vigorous, productive variety. Well developed bushes stand six feet high and the winter color of the young wood is a rich red. The large berries of fine color are usually ready to pick the first week in July.

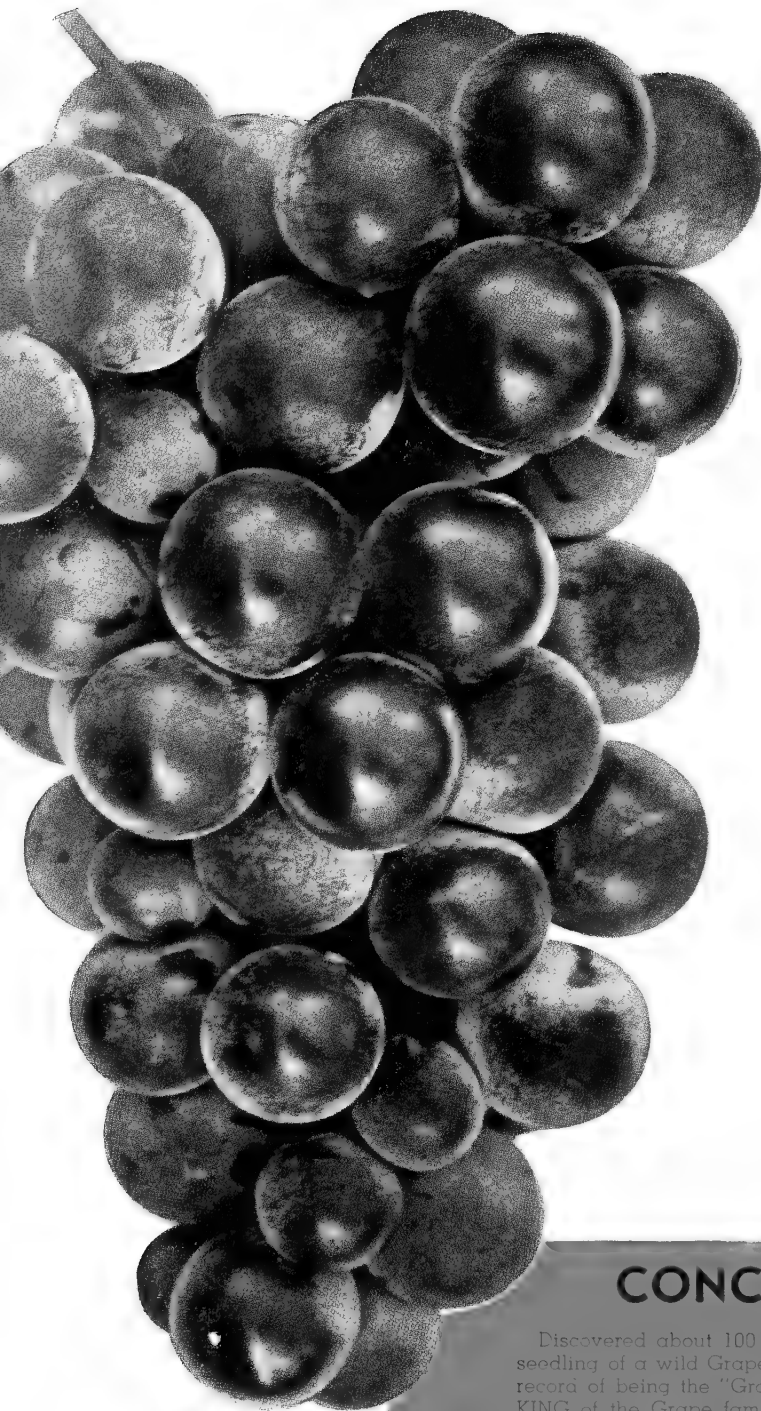

Streamliner

THE BEST EVERBEARING STRAWBERRY

Generally conceded to be the best Everbearing Strawberry offered today. We grow each year 40 to 50 acres of Everbearing Strawberry plants, and have been in the business for many years. Streamliner has been under our constant observation, and after carefully checking on the variety since its origin we proclaim it far superior to all other everbearers introduced to date. Streamliner has real Strawberry flavor, rich red color throughout, is excellent for eating fresh and recommended for canning or freezing. Its spring crop compares favorably to that produced by today's leading standard varieties. Streamliner makes a good fruiting bed. **Price: \$2.25 per 25; \$3.75 per 50; \$6.00 per 100; \$12.00 per 250; \$18.75 per 500; \$30.00 per 1000.**

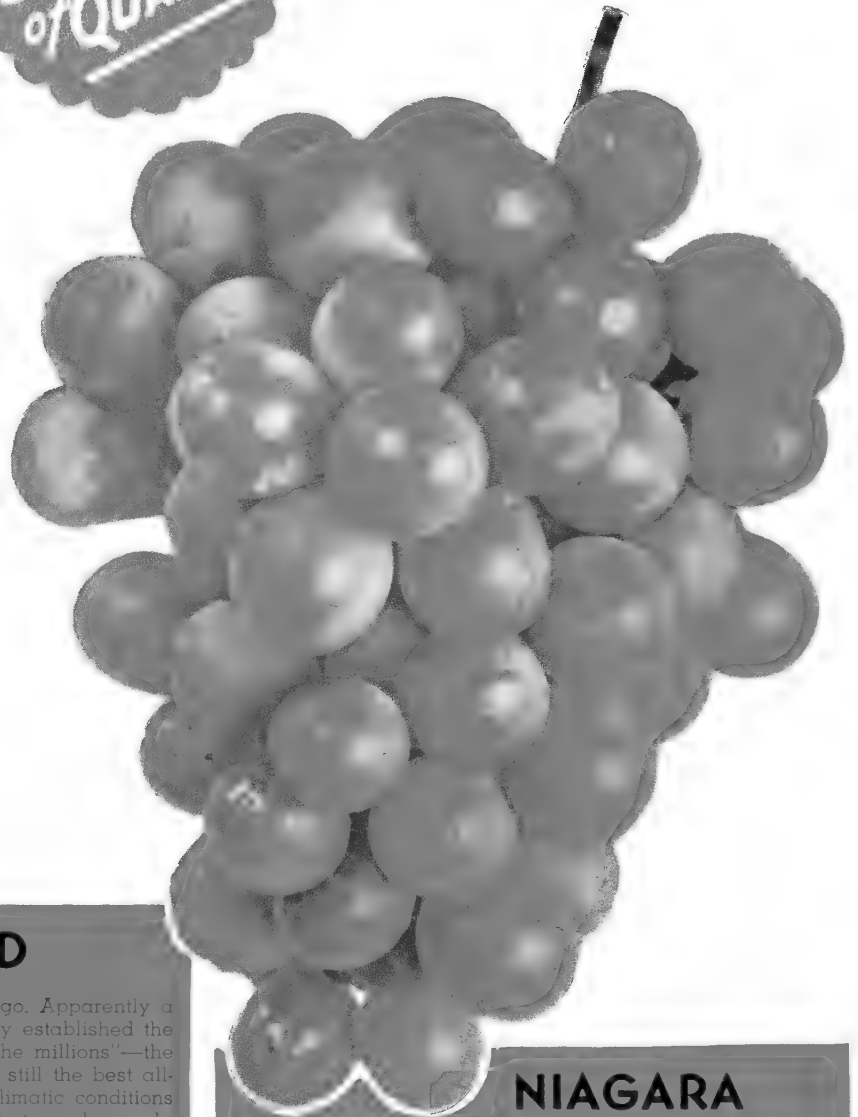

GRAPES

CONCORD

Discovered about 100 years ago. Apparently a seedling of a wild Grape. It early established the record of being the "Grape for the millions"—the KING of the Grape family. It is still the best all-around Grape. Its adaptability to varying climatic conditions alone make it popular, to say nothing of what can be made of its fruit, such as sweet Grape juice, jellies, jams, marmalade, etc.

Concord is a very vigorous grower, hardy and very productive. Ripens midseason and known as the best money making commercial variety; also for home use, it is unsurpassed by any other variety.

NIAGARA

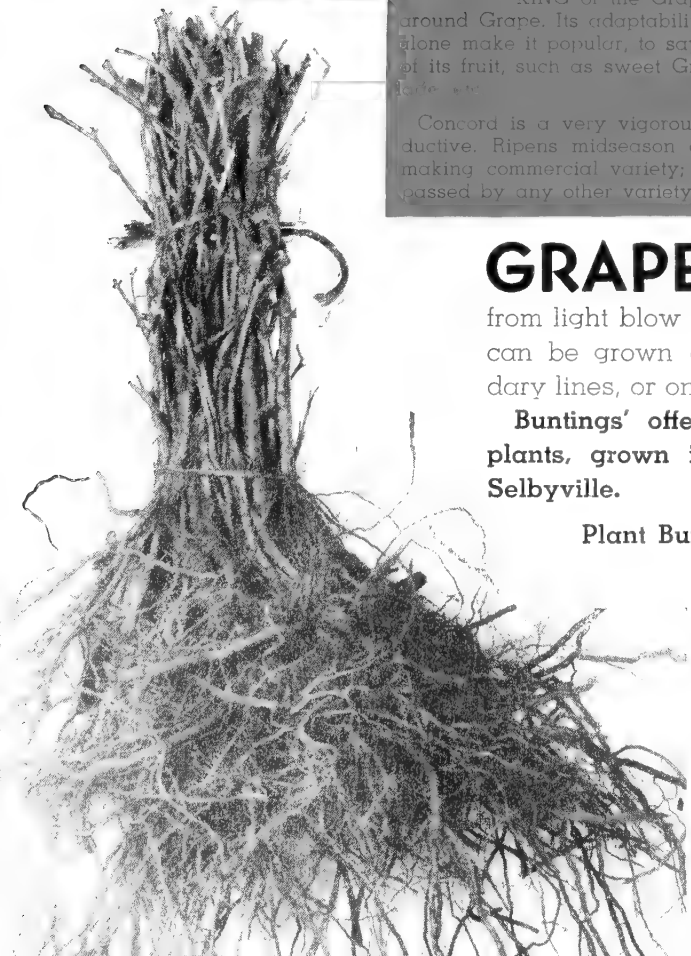

A Quality White Grape

Was first listed in 1864. It is one of the best. It received practically all of its characteristics from this parent. Niagara, therefore, is Queen of the Grape family. Where well grown, its bunch, berry and coloring cannot be surpassed in beauty. It has been and still is the standard white table Grape of Eastern United States. It does not easily crack. Consequently it makes a very good appearance on the market, inducing larger sales. The fruit of Niagara is at its best when left on the vines until well ripened. **Niagara is a worthy Queen of King Concord.**

GRAPES can be grown on many types of soil from light blow sand to heavy clay. They can be grown on hillsides, along boundary lines, or on arbors and trellises.

Buntings' offer only strong, first class plants, grown in our own nurseries at Selbyville.

Plant Bunting's high quality vines and be assured of success. Plant 8 to 10 feet apart. Shipped direct from our nurseries to you.

AGAWAM Deep red or maroon. Ripens early. Fruit large and meaty, borne in extra large, loose-shouldered bunches. Vines strong growers, very healthy. Ripens with Concord. Has a delightful aromatic flavor.

BRIGHTON One of the best red varieties; bunch variable in size, flesh tender and juicy, red; early.

CATAWBA Keeps better than any Grape in cultivation. Ripens late and can be kept in good condition a long time. Berries large, round, when fully ripe dark copper colored. Good market variety.

DELAWARE Early. Vine moderately healthy and vigorous. Bunch small but compact; berries small to medium in size, red in color and of excellent flavor.

All the Best and Most Popular Varieties

CACO

The
Best Red

This is a variety considered the best and hardiest amber-red ever produced, the bunches being very large and the berries comparable with the new Fredonia.

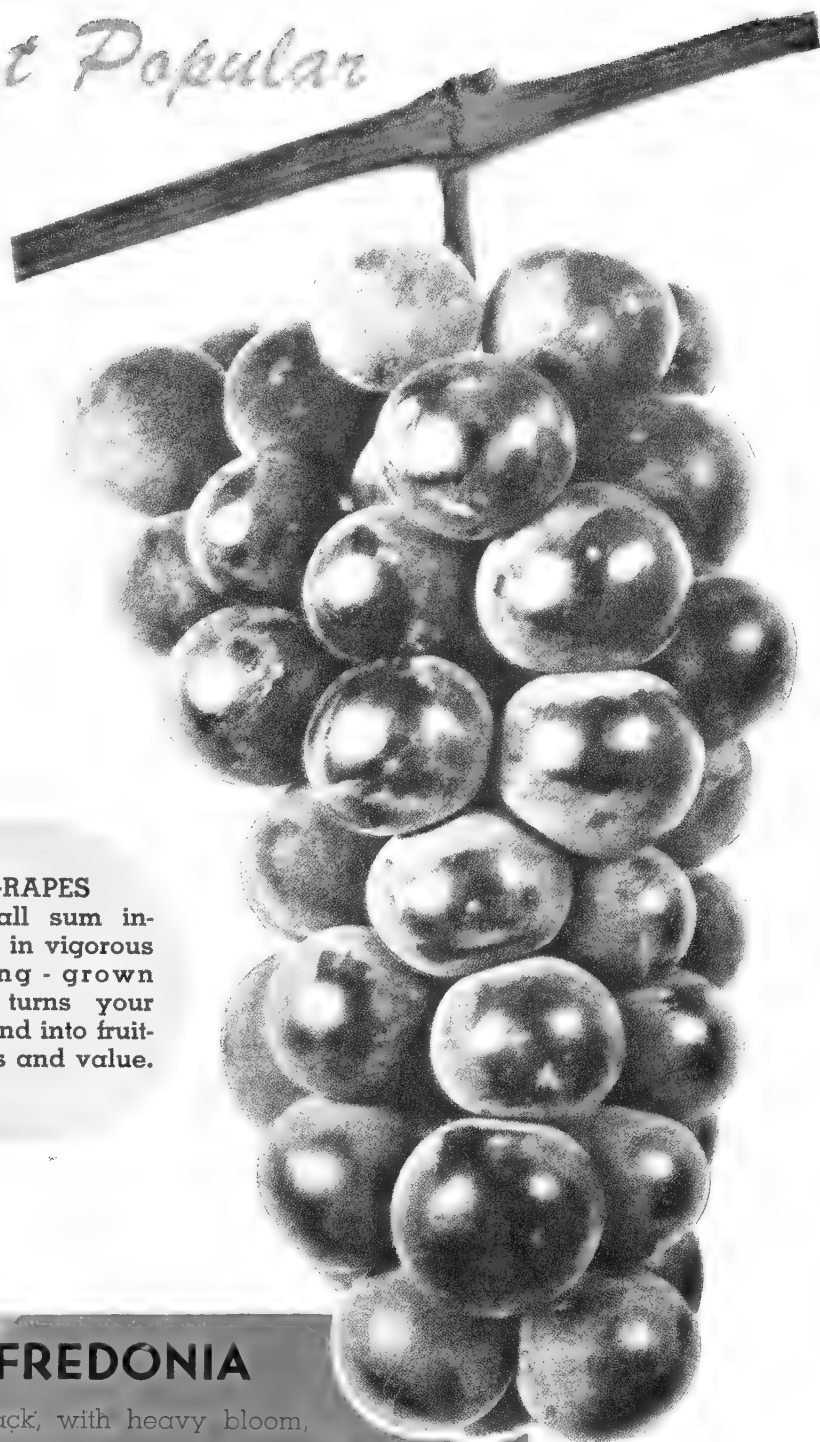

In quality Caco ranks among the best of the native Grapes, approaching in flavor European Muscat rather than the foxiness of native Grapes.

MOORE'S EARLY Ripens before Concord. Color of Grapes deep black. Large and of best quality. Bunches hold together firmly. One of the best shippers. A profitable variety for either home use or market. Makes excellent wine. Very productive. Like Concord and Worden produces abundantly in nursery row on two-year-old vines.

PORTLAND White, very early, cluster medium large, berry good quality. Very hardy, vigorous grower; productive. New and very promising.

GRAPES

A small sum invested in vigorous Bunting - grown vines turns your idle land into fruitfulness and value.

FREDONIA

Black, with heavy bloom, cluster about medium, berry large, very early, good quality, comparatively new and very promising.

MOORE'S DIAMOND

White. Ripens early September. Berries medium size, and desirable for Grape juice. Good quality fruit.

WORDEN Vine moderate grower, very hardy and productive. Grapes very large, thin skin, very fine flavor, blue-black in color and fine for home use or nearby market. One of the earliest, ripening about 10 days before Concord. Fruits heavily on young vines.

Grapes are easy to grow, and do not require a lot of space. It's easy for the average family to grow their own requirements for Grape juice, jelly, eating fresh, etc. Once established, they continue in heavy production for many years. Buntings' vines will bear the next year after they are planted.

FRESH FROM YOUR GARDEN EVERY YEAR

ASPARAGUS

Buy thrifty crowns grown by
BUNTINGS' NURSERIES, Inc., Selbyville, Delaware

Mary Washington

The Blue-Blood of the Asparagus World. Extra heavy crowns, long fat roots, strong giant size, green color. Bunting grown.

Originated by the U. S. Department of Agriculture and for years considered the best variety of Asparagus grown. All of the commercial growers are planting Washington exclusively. Very strong grower, stock of giant size, green color, rich and tender. It is our opinion that the two principal good points of this variety are, that it is rust-resistant, also a stronger grower than any of the old standards of Asparagus.

PRICES OF MARY WASHINGTON ASPARAGUS

1-yr., No. 1 grade	1.15	1.90	3.00	6.00	15.00	70.00

New PARADISE Variety

Sensational **new**, early maturing variety. Produces a normal crop in many instances one year earlier than ordinary varieties. Growers who have seen this Asparagus growing have been amazed to see the straight, crisp, large stalks that were produced from roots set the previous spring. An exceptionally strong, vigorous grower. Large, crisp, tender stalks with exceptionally fine, mild flavor. With today's trend of freezing vegetables for the market, it has another distinct advantage in that it retains its fresh flavor after freezing. Because it brings returns one year earlier than other varieties, and because of its great size, large crop and fine, mild flavor, plant Paradise in your garden this year.

Rhubarb or Pieplant

MacDONALD RHUBARB. You'll want some of this **red, sweet Rhubarb.** The new seedless variety, grown from divisions. Outyields and takes less sugar than Myatt's Linnaeus. Mildly acid, bears stalks up to 2 feet tall, red all the way down. **Price: No. 1 divisions, 75c each; 3 for \$2.00.**

MYATT'S LINNAEUS Rhubarb. Early, large, tender and good quality. **Price: 2-yr., No. 1 plants, 25c each; 3 for 65c; 10 for \$2.00.**

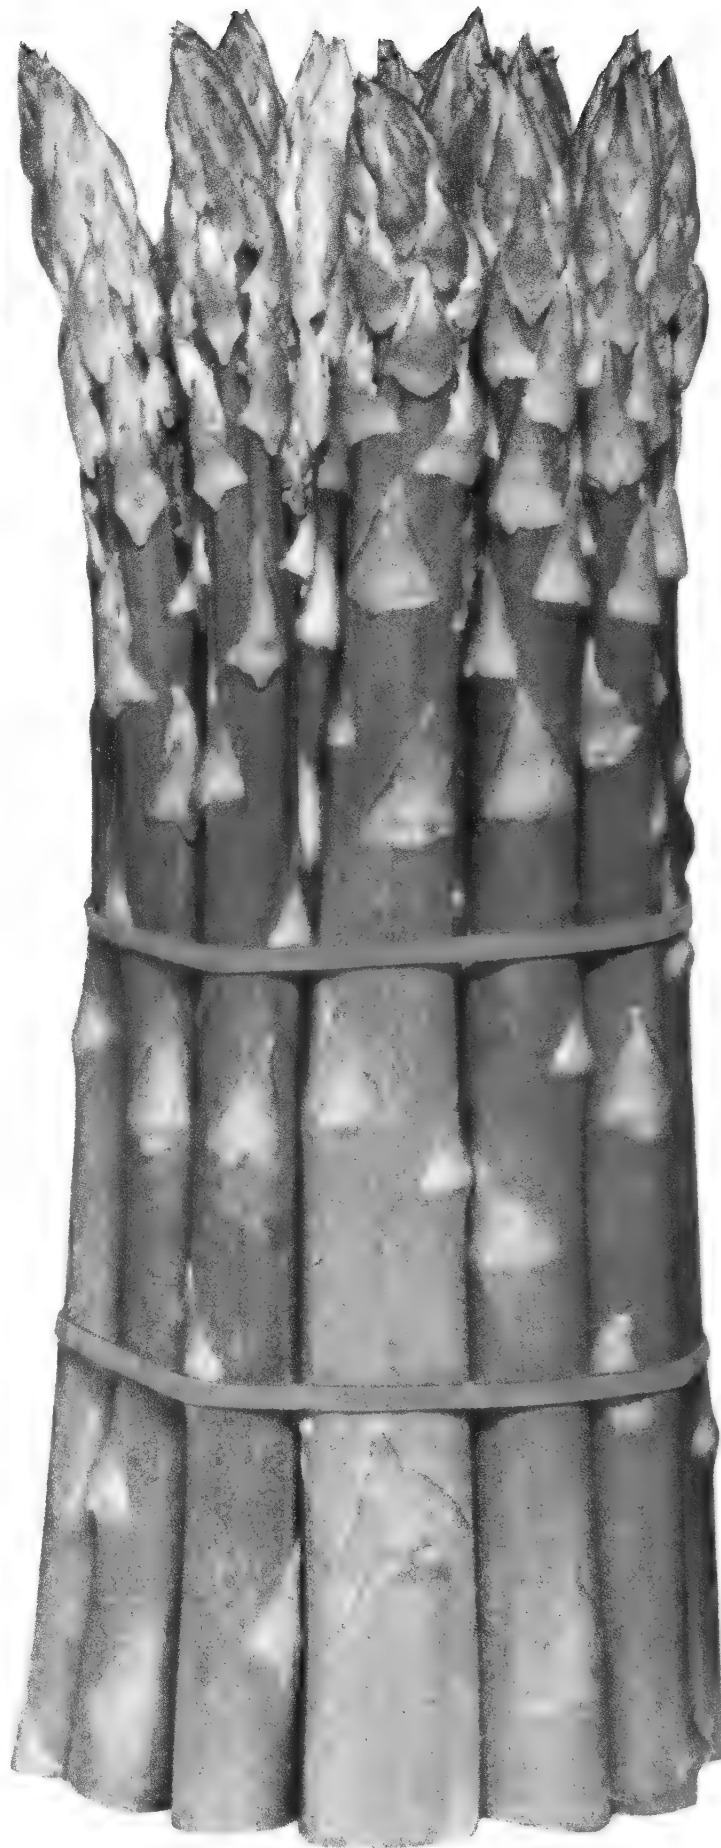

Illustration features a bunch of Asparagus tips cut from a planting of Bunting's superior strain Asparagus crowns. We grow each year millions of a superior strain Asparagus crowns for the more discriminating class of commercial Asparagus growers and gardeners. Include in your order for your garden this year some Asparagus. There is nothing more delicious and healthful than freshly cut new Asparagus tips from your own garden. Very successful in freezing units.

We are the largest growers of Asparagus plants in America. The seed from which are plants are grown is selected from a pedigreed field; it is hand-picked from the sturdiest stalks in the field, assuring you of the best strain of Asparagus possible when you buy Buntings' plants.

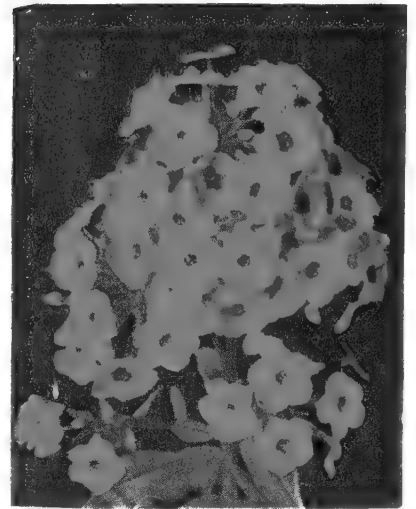

Hollyhocks

Perennial Gardens for All Season Flowers

Once Planted Will Grow and Multiply

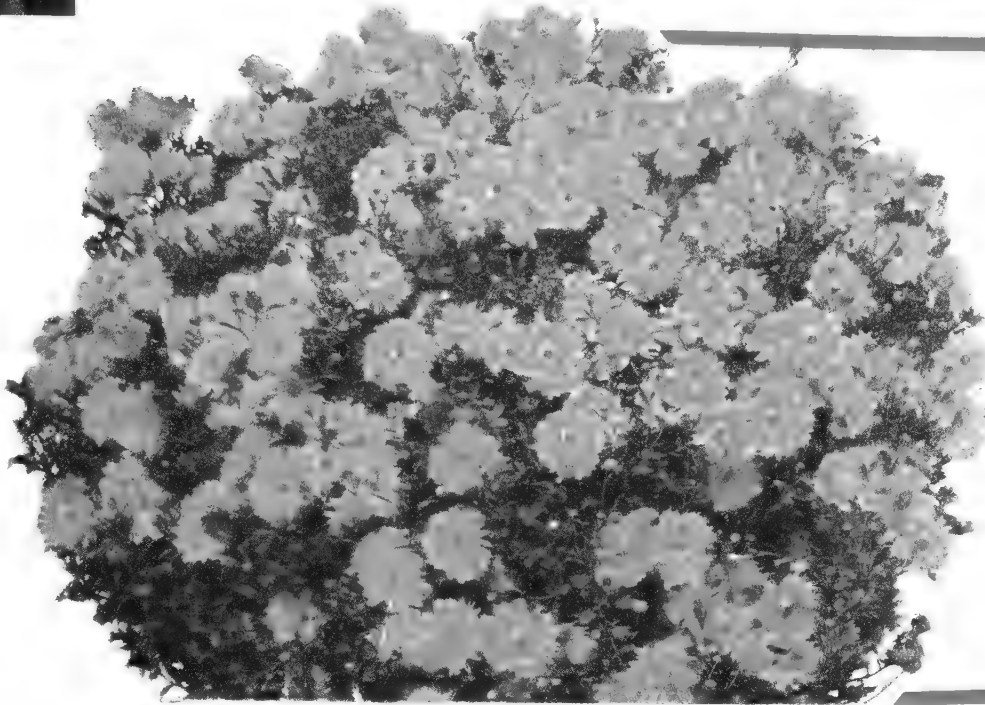

HOLLYHOCKS. Exceptionally lovely for backgrounds. Will bloom this summer and continue to bloom heavily for many years thereafter. Colors: red, pink, white and yellow.

HARDY CARNATIONS. Masses of lovely flowers all season. Large, fragrant blooms, on long stems; excellent for cutting. Colors: pink, red, white and yellow.

Phlox

GROWN PLANTS.

Red Cushion Mum

Multiple Flowering CUSHION MUMS

This compact bush is literally covered with hundreds of dainty flowers during late summer and fall. They retain their globular shape and often make a ball-shaped plant with about 2½-ft spread.

COLORS

Red, Pink,
White and Yellow

PHLOX. Immense flower heads are carried on straight, strong stems, from midsummer to autumn. Hardy, strong growers, producing dazzling color year after year. Colors: white, pink, red and violet-blue.

SPEEDWELL (Veronica). Rich blue flower spikes in August.

COREOPSIS (Tickseed). Pure yellow flowers from June to frost.

DAY LILY (Hemerocallis). Bloom July and August; rich golden yellow to deep golden orange.

GAILLARDIA (Blanket Flower). Blooms from June to November; brilliant orange-yellow, red-centered flowers.

BLEEDING HEART. Lend a fine romantic touch to any garden. Thrive in shade.

BABY'S BREATH. Small, white flowers from July to September; excellent for cutting.

FALSE DRAGONHEAD. Flowers lively pink, similar to Snapdragon. Blooms from July to September. Thrives in all soils.

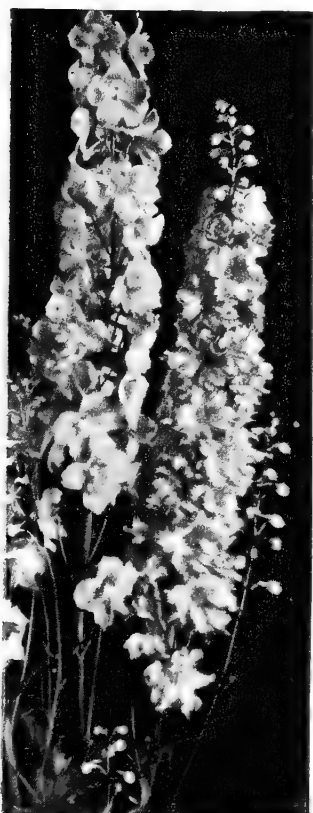

CHRYSANTHEMUMS. Bloom from late summer all through autumn. Excellent for bouquets. Colors: red, white and yellow.

DELPHINIUM. One of the most popular and best known perennials. The flowers are various shades of blue, produced on long stems starting in June. See illustration at left.

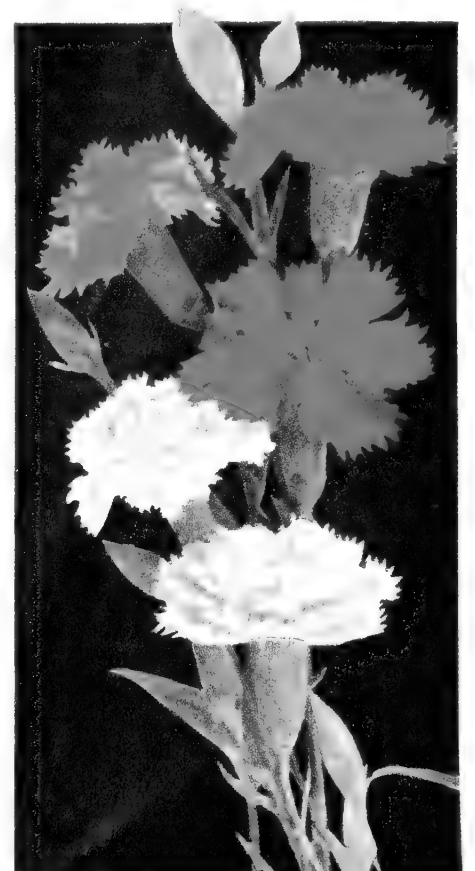

COLUMBINE (Aquilegia). This improved form of Columbine produces flowers 3 to 4 inches across, with long spurs, borne on graceful stems.

GERMAN IRIS. Flowers delightfully fragrant, lasting well into June; good for cutting.

PRICE: All varieties Perennials listed, 50c each; 3 for \$1.35; 6 for \$2.50.

Delphinium

Hardy Carnation

FLOWERING TREES

Spectacular Beauty

Pink Flowering Dogwood

PINK FLOWERING DOGWOOD. A profusion of pink and red flowers in May. Its foliage is unusually brilliant in the fall. Price: 2 to 3 ft., \$3.50 each.

HOPA FLOWERING CRAB. A handsome ornamental tree. An abundance of bright red flower clusters in the spring. Price: 4 to 5 ft., \$1.75 each; 5 to 6 ft., \$2.00 each.

Hopa Flowering Crab

There is a place on every lawn for one or more of these choice flowering trees. They are hardy, prized not only for their beauty but for shade, grow larger year after year, and we do not know of any other tree or plant that provides so much for the original amount of money invested.

DOUBLE FLOWERING PEACH.

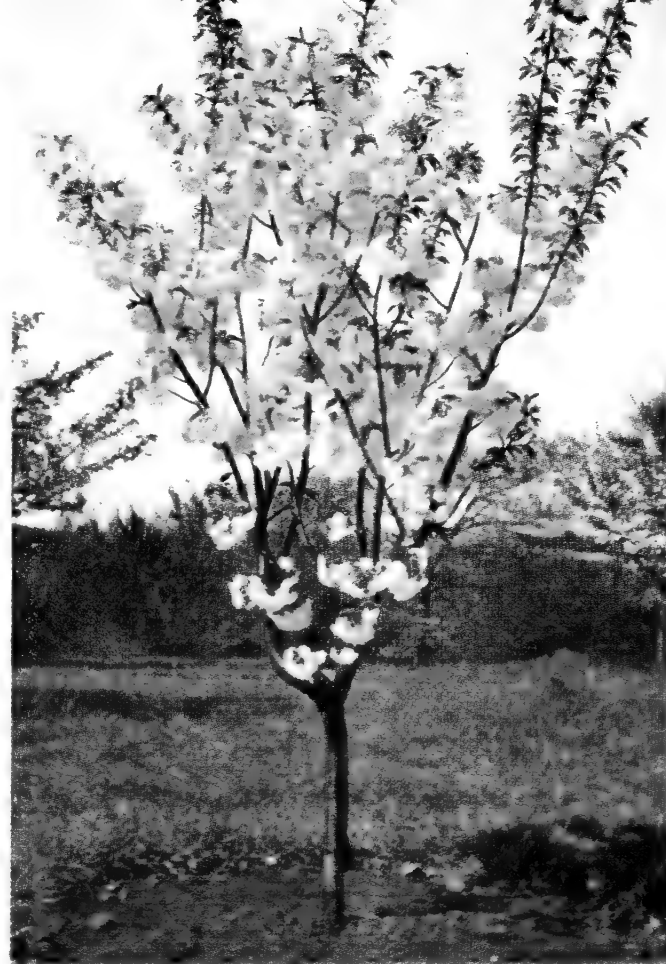

Small trees, covered in early spring with double, rose-like flowers. Colors: red, white and pink. State choice of color. Price: 4 to 5 ft., \$1.75 each; 5 to 6 ft., \$2.00 each.

PURPLE-LEAF PLUM. A profusion of blooms in May. Deep red foliage all spring and summer. Price: 4 to 5 ft., \$2.00 each; 5 to 6 ft., \$2.25 each.

JUDAS TREE (Redbud). A small tree or large bush with a broad round top. In May before the leaves appear, it bears dense masses of deep rose-pink flowers. Price: 4 to 5 ft., \$3.00 each.

WHITE FLOWERING DOGWOOD. In early May this small native tree is a cloud of white flowers, and in the autumn the upper sides of the leaves turn a brilliant crimson. Price: 3 to 4 ft., \$3.00 each.

[28]

Double Flowering Cherry

DOUBLE FLOWERING CHERRY. Well known because of the renowned planting in Washington, D. C. Varieties: **Kwanzan** (double dark pink); **Yoshino** (single white); **Naden** (double deep pink). Order by variety. Price: 4 to 5 ft., \$3.50 each.

WEeping FLOWERING CHERRY. A weeping form of the popular Double Flowering Cherry. Has slender, pendulous branches hanging nearly to the ground. In early May the branches are strung with showy rose-pink flowers. Price: 2-year heads, 5 to 6 ft. stems. \$6.00 each.

Weeping Cherry

BEST ORNAMENTAL LAWN AND STREET TREES

STRAIGHT STEMS — WELL BRANCHED — HEAVY-ROOTED — BIG VALUES

Grown by
BUNTINGS'
NURSERIES
 Selbyville, Delaware

Schwedler Maple

SCHWEDLER MAPLE. Similar to the Norway Maple in form and leaf except the leaves are red in spring and early summer, and turn to purple in late summer and fall. **Price 5 to 6 ft., \$3.00 each.**

CUT-LEAF WEEPING BIRCH. Distinguished for its white bark, light green leaves which are finely cut, and its long drooping branches. **Price: 6 to 8 ft., \$3.50 each.**

NORWAY MAPLE. Symmetrical, dense, round-headed tree; well known, justly popular. **Price: 6 to 8 ft., \$3.00 each; 8 to 10 ft., \$4.00 each.**

SILVER MAPLE. Well known, most popular rapid growing shade tree. **Price: 6 to 8 ft., \$2.25 each; 8 to 10 ft., \$3.00 each.**

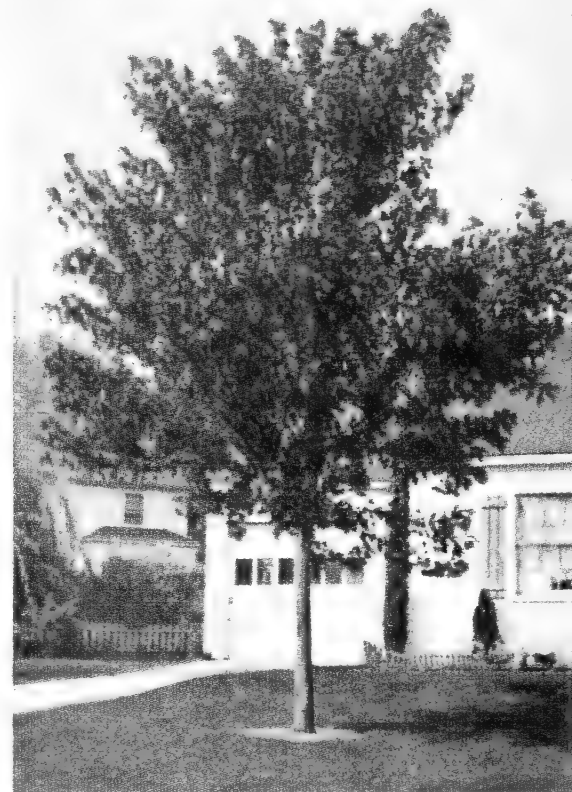

Norway Maple

AMERICAN ELM. A stately and dignified tree. Popular for street, park and roadway. **Price: 6 to 8 ft., \$2.75 each.**

EUROPEAN MOUNTAIN ASH. A very attractive, small, hardy tree which bears clusters of scarlet berries from July to winter. **Price: 6 to 8 ft., \$4.00 each.**

SWEET GUM. Large star-shaped leaves, which turn to a blazing scarlet in the fall. Compact, strong grower; a clean, stately and well-shaped tree. **Price: 6 to 8 ft., \$3.00 each.**

Silver Maple

CHINESE ELM. A very rapid growing tree of dense pyramidal form. Slender, grayish branches, and small, fresh green leaves. **Price: 6 to 8 ft., \$2.25 each.**

WISCONSIN WEEPING WILLOW. Most popular of all Weeping Willow trees. See illustration. **Price: 6 to 8 ft., \$2.25 each.**

Wisconsin Weeping Willow

MAIDENHAIR TREE. Tall, narrow, sparsely branched tree. The leaves, in form, resemble the Maidenhair Fern. Will withstand extreme heat or cold. **Price: 6 to 8 ft., \$3.00; 8 to 10 ft., \$4.00 each.**

ORIENTAL PLANE. Considered the most popular and successful tree for city planting. Dense grower; very symmetrical. **Price: 6 to 8 ft., \$3.00 each.**

LOMBARDY POPLAR. A tall spirelike tree. Effective for screens and vertical accents. **Price: 6 to 8 ft., \$1.25 each.**

Buntings' BEST VINES

Goldflame Honeysuckle

PURPLE WISTARIA

Purple blooms in great profusion during spring. Fine for porches and trellises. **Strong.** 2-yr. vines, \$1.25 each.

Nature's Draperies That Cling and Climb

BOSTON IVY (*Ampelopsis Veitchi*). Grows very dense. Foliage green and very healthy. Price: 2-yr. vines, 75c each.

CLEMATIS PANICULATA. Flowers snow-white during entire summer and autumn. Price: 2-yr. vines, 75c each.

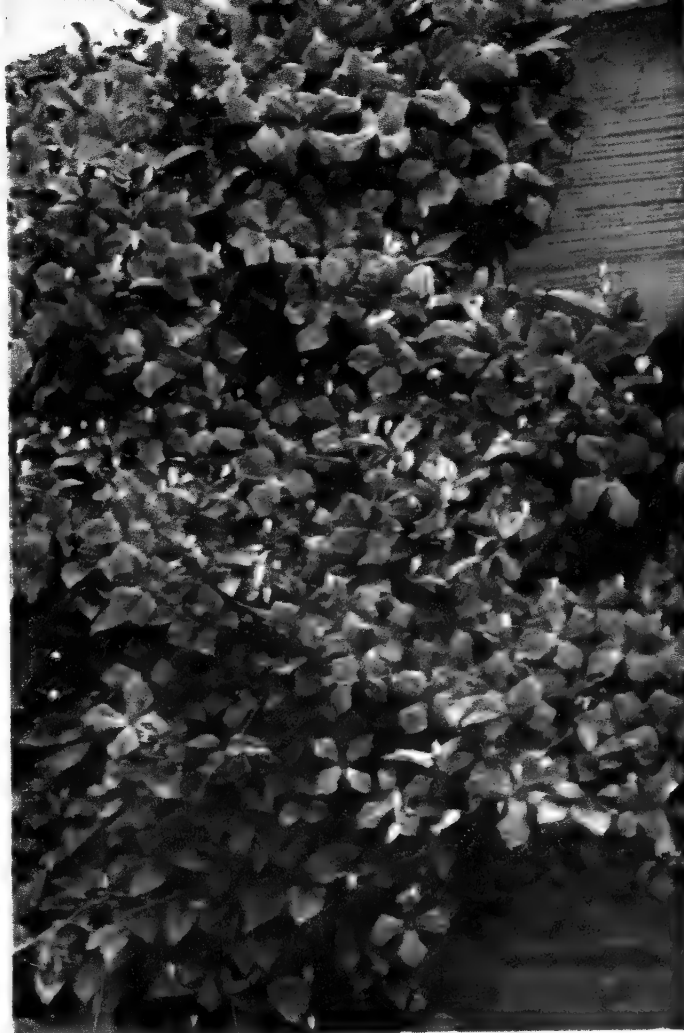

CLEMATIS, LARGE FLOWERED. Very popular. Profusion of large flowers during summer and autumn. Varieties: **Andre** (red); **Henryi** (white); **Jackmani** (purple); **Ramona** (blue). Price: 2-yr. vines, \$1.25 each.

HALL'S HONEYSUCKLE. White flowers from May until November. Price: 2-yr. vines, 60c each.

GOLDFLAME HONEYSUCKLE. Blooms all summer. Showy tubular flowers, flamed outside, bright yellow inside, borne in clusters. Delightfully fragrant. Price: 2-yr. vines, 75c each; \$7.00 per 10.

SILVER LACE VINE (*Polygonum Auberti*). Very fragrant white flowers during the month of September. Price: 2-yr. vines, \$1.00 each.

TRUMPET VINE (*Bignonia Radicans*). Orange flowers in midsummer. Price: 2-yr. vines, 60c each.

Clematis Jackmani

HEDGES *Beautiful Living Fences*

Cost Less Than Cheapest Wood or Metal Fences and Never Need Painting

GREEN-LEAF BARBERRY. Well known; needs little description. Dark green leaves which turn to red and yellow in the fall. Thorny bush, which makes good hedge or specimen plants. Graceful, drooping branches are loaded late in summer with bright red berries that hang on most of the winter.

	10	100
2-yr., 9 to 12 in.	\$2.00	\$15.00
2-yr., 12 to 15 in.	2.50	20.00
3-yr., heavy transplants, 18 to 24 in.	4.50	40.00

RED-LEAF BARBERRY. Same as the popular, well known, hardy-as-an-oak Green-Leaf Barberry, except the foliage is deep red in the spring and deep purple during the summer months. Popular for planting in clumps, hedges, as well as in foundation plantings.

	10	100
2-yr., 9 to 12 in.	\$3.50	\$25.00
2-yr., 12 to 18 in.	4.00	30.00

CALIFORNIA PRIVET. America's leading hedge plant. Its foliage is of the deepest, richest green and stays on until late winter. Very hardy; easily and quickly pruned.

	10	100	1000
6 to 12 in.	\$1.20	\$ 8.00	\$ 70.00
12 to 18 in.	1.40	10.00	80.00
18 to 24 in.	1.80	14.00	120.00
2 to 3 ft.	2.50	18.00	150.00
3 to 4 ft.	3.50	25.00	200.00

AMUR RIVER NORTH PRIVET. Foliage small and attractive. Vigorous and very compact grower. Extremely hardy and will stand the low temperatures of the northern states. Particularly recommended for planting in sections where the temperature drops to zero or below.

	10	100	1000
6 to 12 in.	\$1.20	\$11.00	\$ 80.00
12 to 18 in.	1.40	13.00	100.00
18 to 24 in.	1.80	17.00	140.00
2 to 3 ft.	2.50	21.00	180.00
3 to 4 ft.	3.50	28.00	230.00

SPIREA VAN HOUTTEI (*Bridal Wreath*). Beautiful hedge with masses of white flowers in early spring. Grows 6 to 8 feet high. Plant 12 to 18 inches apart.

	10	25	100
12 to 18 in. hedge grade	\$3.00	\$6.25	\$20.00
18 to 24 in. hedge grade	3.50	7.50	25.00

**Here's QUALITY
PLUS
ECONOMY**

BUNTINGS' *fine* FLOWERING SHRUBS

BLOOM from APRIL to LATE FALL

WHITE SNOWBERRY. This low, shade-loving plant bears rose-white flowers in summer, and large white berries in winter. A superb fine-textured shrub for borders and shady foundation plantings. **Price: 1½ to 2 ft., 65c each; 2 to 3 ft., 80c each.**

SPIREA ANTHONY WATERER. A dwarf and very dense little shrub which bears flat clusters of rose-pink flowers all summer. If the bloomed heads are removed it will continue to flower more abundantly. **Price: 12 to 15 in., 65c each; 15 to 18 in., 80c each.**

CREPE MYRTLE. Spring planting only. A strong growing shrub, adapting itself to almost any soil and condition except in the northern sections where temperature often drops below zero. Does very well south of Philadelphia. Leaves bright green; the blooms are large panicles of crinkled little flowers of brilliant pink. Blooms late July and August. **Price: 2- to 3 ft. plants, \$1.50 each.**

MOCK ORANGE. A choice shrub, with a wealth of large, creamy white flowers that have the texture and fragrance of orange blossoms. Blooms in May and June. **Price: 1½ to 2 ft., 65c each; 2 to 3 ft., 80c each.**

Hydrangea A. G.

HYDRANGEA, HILLS OF SNOW (Hydrangea A. G.) Known for its profusion of round snow-white blooms which appear early in July and last until late September. Very hardy. **Price: 18 to 24 in., 80c each; 2 to 3 ft., \$1.00 each.**

BLOOD-TWIG DOGWOOD (Cornus alba sibirica). Bright cherry-red stems in winter; creamy white flowers. **Price: 1½ to 2 ft., 65c each; 2 to 3 ft., 80c each.**

GOLDEN TWIGGED DOGWOOD (Cornus Stolonifera Lutea). Very striking yellow branches in winter, and forms a good contrast when planted with the red stem sorts. **Price: 1½ to 2 ft., 65c each; 2 to 3 ft., 80c each.**

Coralberry

CORALBERRY or INDIAN CURRANT. A dwarf shrub which thrives in the shade.

The coral-colored berries last until late winter, and are produced profusely. **Price: 1½ to 2 ft., 65c each; 2 to 3 ft., 80c each.**

RED-LEAVED BARBERRY. Same as the popular, well known, hardy-as-an-oak Green-Leaf Barberry, except that the foliage is deep red in the spring and deep purple during the summer months. Popular for planting in clumps, hedges, as well as in foundation plantings. **Price: 18 to 24 in., 70c each; \$6.50 per 10.**

Red Barberry

LANDSCAPE YOUR GROUNDS

It's Smart Business— Increase Real Estate Values

Be your own landscape architect. Start this spring with a definite planting plan. Get your trees in, your lawn started, hedges and shrubs planted. Here is a good vigorous beginning that by the end of the summer will give you a grand and glorious sense of achievement.

Clever, artistic landscaping has brought a marvelous transformation that you could scarcely believe possible a few months earlier.

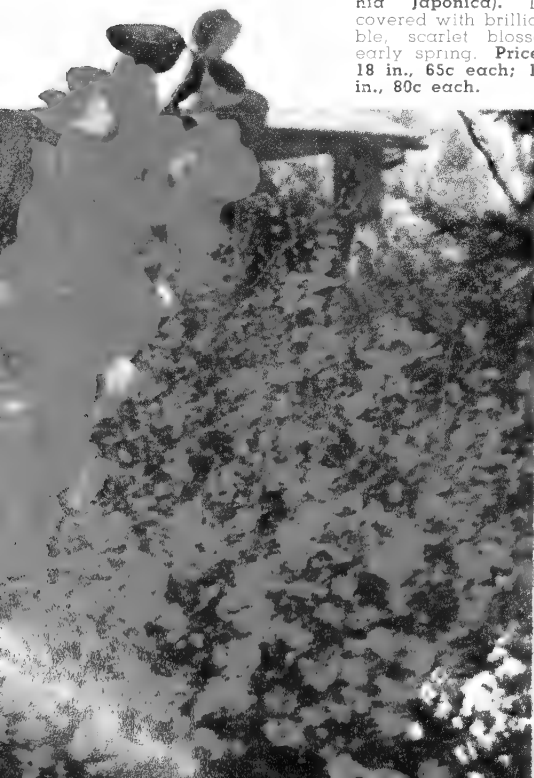

ALTHEA, Rose of Sharon. Upright, very hardy. Color spot of the fall; begins blooming in early summer and continues through the fall months. Your choice of red, white, pink or blue. Price: 1½ to 2 ft. plants, 65c each; 2 to 3 ft., 80c each.

HYDRANGEA Otaksa. Large blue or pink blooms in midsummer (color depending upon soil acidity). Either color is most attractive. Very popular. Price: Strong, 2-yr. plants, \$1.50 each.

FLOWERING QUINCE (Cydonia Japonica). Literally covered with brilliant double, scarlet blossoms in early spring. Price: 15 to 18 in., 65c each; 18 to 24 in., 80c each.

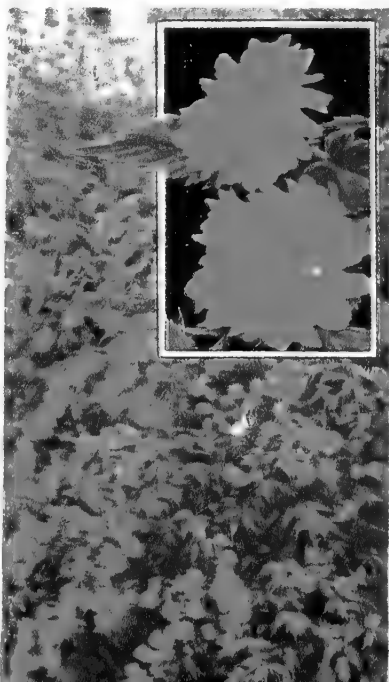

Sweet Shrub

SWEET SHRUB (Calycanthus Floridus). Sometimes called the Strawberry Shrub. A widely cherished, old-fashioned plant. Neat, compact, with large leaves and small double blossoms of dark mahogany color with rare fragrance. Blooms in May and June with a few blossoms from time to time during the summer. Price: 1½ to 2 ft., 65c each.

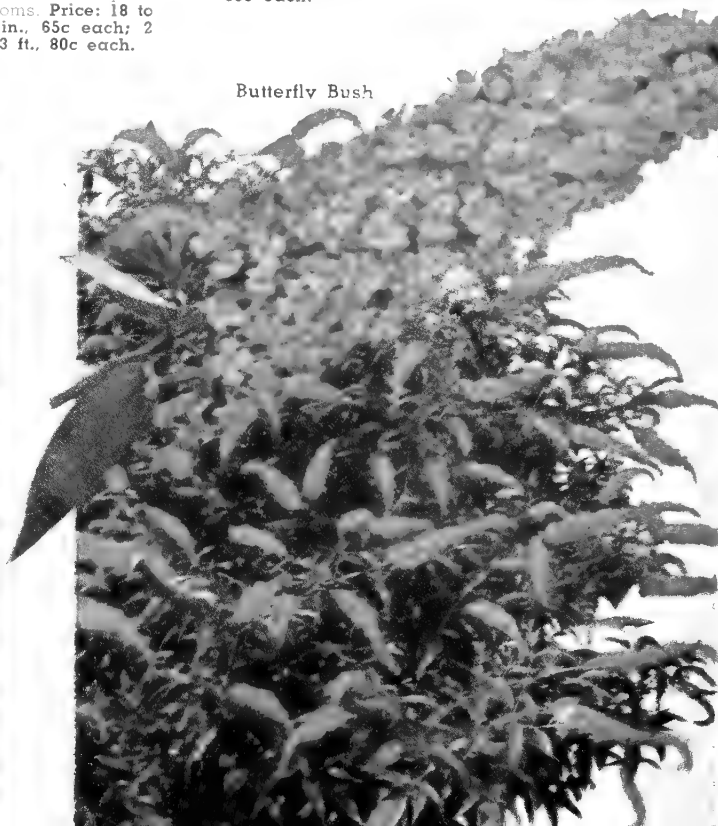

KERRIA. A rather tall, erect shrub bearing bright yellow, double flowers throughout the summer. Valued in wintertime for its bright green stem. The foliage is deep green above and pale below. Price: 18 to 24 in., 80c each.

[32]

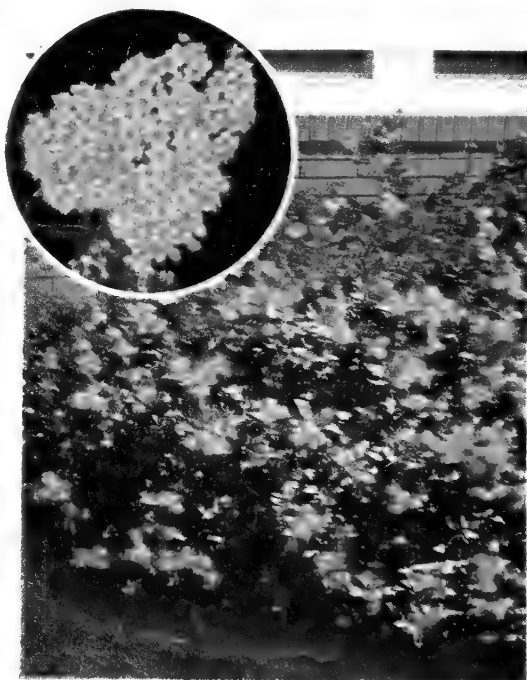

Kerria

BUTTERFLY BUSH, Cha. ming. A glorious new shrub bearing throughout the late summer elegant long sprays covered with lovely lavender-pink blossoms. Price: 18 to 24 in., 65c each; 2 to 3 ft., 80c each.

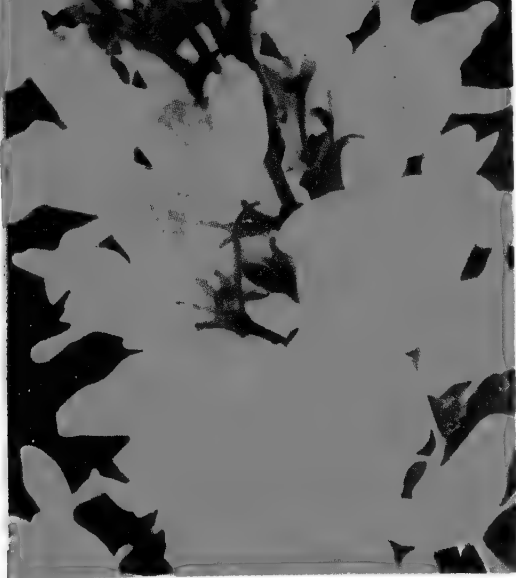

Butterfly Bush

DWARF CRIMSON SPIREA. Very dense growing plant, with clusters of rose-pink flowers all summer. Price: 15 to 18 in., 65c each; 18 to 24 in., 80c each.

HYDRANGEA PEE GEE. Pyramids of creamy white flowers which are tinged with pink in late summer. Price: 18 to 24 in., 80c each; 2 to 3 ft., \$1.00 each.

Forsythia

FORSYTHIA FORTUNEI (Golden Bell). Their bright masses of golden yellow appear in April, before any foliage; vigorous grower. Price: 1½ to 2 ft., 65c each; 2 to 3 ft., 80c each.

Almond

ALMOND, Pink Flowering. A beautiful small shrub, bearing an abundance of small, double, rose-like flowers, closely set upon twigs, before the leaves appear in early spring. Price: 1½ to 2 ft., 80c each; 2 to 3 ft., \$1.00 each.

Weigela Rosea

WEIGELA Rosea. Remarkably showy trumpet-shaped flowers of brilliant pink in June and July. Price: 1½ to 2 ft., 65c each; 2 to 3 ft., 80c each.

WEIGELA, Eva Rathke. Dark reddish green foliage; attractive, deep carmine flowers throughout summer and fall. Price: 1½ to 2 ft., 80c each; 2 to 3 ft., \$1.00 each.

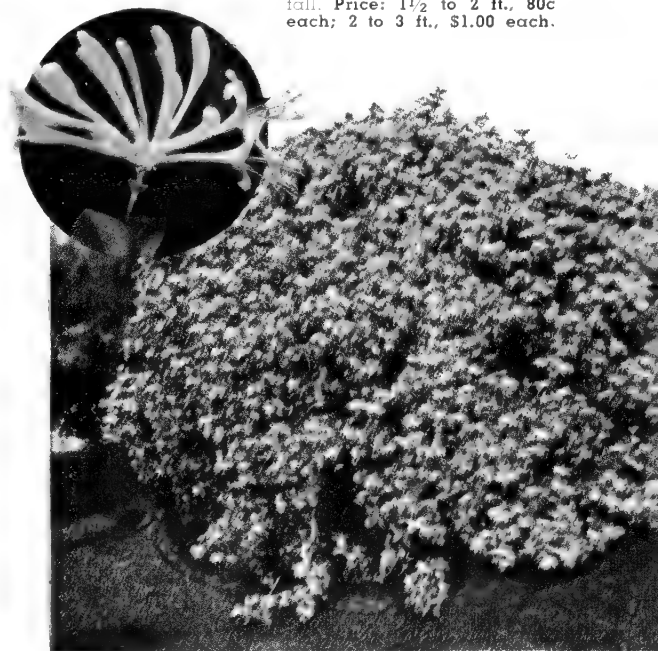

Spirea Billiardi

SPIREA Billiardi. Erect, sparsely twigged branches, crowned with dense spikes of rose-pink flowers from July to September. Price: 1½ to 2 ft., 65c each; 2 to 3 ft., 80c each.

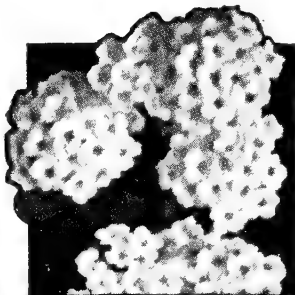

Deutzia, Pride of Rochester

DEUTZIA, Pride of Rochester. Blooms in May, large double flowers. Price: 1½ to 2 ft., 65c each; 2 to 3 ft., 80c each.

Honeysuckle

HONEYSUCKLE, Tartarian Pink. A profusion of lovely flowers make a delightful contrast with bright green leaves. Price: 18 to 24 in., 65c each; 2 to 3 ft., 80c each.

Spirea Van Houttei

SPIREA VAN HOUTTEI. Sometimes called the "Improved Bridal Wreath." A medium sized shrub covered in late May and June with pure white flowers. Foliage is dark green and fine textured. Price: 18 to 24 in., 65c each; 2 to 3 ft., 80c each.

Tips on Distance to Plant - - Number per Acre for Small and Large Fruits, Asparagus, Etc.

Distance for Planting—Square Method

Distances for planting different kinds of fruit trees, etc., square method:

Peach. 20 feet apart each way.
Standard Apple. 35 feet apart each way.
Cherry, Sour. 18 feet apart each way.
Cherry, Sweet. 20 feet apart each way.
Standard Pear. 20 feet apart each way.
Plum. 20 feet apart each way.
Grape Vines. Rows 8 feet apart, 8 feet apart in row.
Blackberries. Rows 6 feet apart, 6 feet apart in row.
Black Raspberries. Garden culture, 4x3 ft.
Black Raspberries. Field culture, 7x4 ft.
Red Raspberries. Garden culture, 4x3 ft.
Red Raspberries. Field culture, 7x3 ft.
Dewberries. Rows 4 feet apart, 5 feet apart in row.
Strawberries, Field Culture. Rows 4 feet apart, 1½ feet apart in row.
Strawberries, Garden Culture. Rows 2 feet apart, 1 foot apart in row.
Asparagus, in Field. Rows 5 feet apart, 2 feet apart in row.
Asparagus, in Beds. Rows 1½ feet apart, 1 foot apart in row.

Rules for Other Distances

Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill, which, divided into the number of square feet in an acre (43,560), will give the number of plants or trees to an acre.

Number of Trees Required to Set an Acre at Various Distances

	Trees per Acre
Trees planted 35 feet apart each way	35
Trees planted 30 feet apart each way	49
Trees planted 25 feet apart each way	69
Trees planted 20 feet apart each way	109
Trees planted 18 feet apart each way	137
Trees planted 16 feet apart each way	170
Trees planted 14 feet apart each way	222
Trees planted 12 feet apart each way	302
Trees planted 10 feet apart each way	435
Trees planted 8 feet apart each way	680
Trees planted 6 feet apart each way	1,210
Trees planted 4 feet apart each way	2,722
Trees planted 3 feet apart each way	4,840

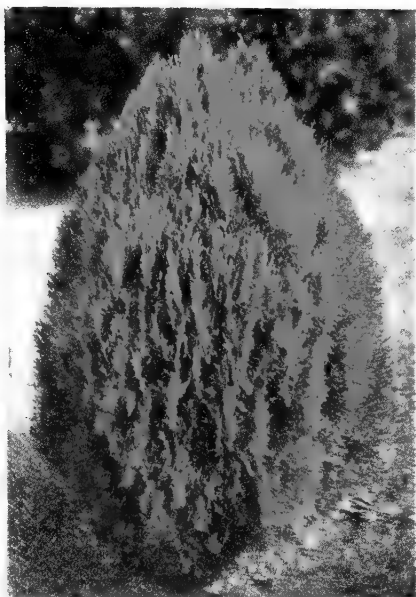

Number of Plants Required to Set an Acre at Various Distances

1 x 1 ft.	43,560	4 x 2 ft.	5,445
2 x 2 ft.	10,890	5 x 1 ft.	8,712
3 x 1 ft.	14,520	5 x 2 ft.	4,356

Evergreens for Modern Plantings

YEW

Modern landscapes demand these beautiful evergreens—their elaborate foliage pattern, and rich color blends.

Golden Arbor-Vitae

BERCKMANN'S GOLDEN ARBOR-VITAE. Conical form, very dense and compact; bright yellow foliage. Price: 8 to 10 in., \$1.80; 2 for \$3.50.

UPRIGHT YEW (*Taxus Media Hicksi*). A beautiful slow growing evergreen, with rich dark green foliage throughout the year. Price: 1½ to 2 ft., \$5.00 each; 2 for \$9.90.

First-class specimens a number of times transplanted—dug fresh, roots puddled, wrapped in sphagnum moss for shipment. Plant immediately after moss is removed from roots.

Spreading Yew

SPREADING YEW (*Taxus Cuspidata*). A compact, spreading variety: dwarf habit of growth. Very hardy; handsome dark green foliage. Covered with bright rose-red fruits in autumn. Price: 12- to 15 in. spread, \$3.00 each; 2 for \$5.90.

ARBOR-VITAE

CHINESE ARBOR-VITAE. Tall, slender, fast grower; dark green foliage. Price: 18 to 24 in., \$2.40 each; 2 for \$4.70.

GLOBE ARBOR-VITAE. Very dwarf, round or globe-shaped; foliage dark green. Price: 8 to 10 in., \$1.80 each; 2 for \$3.50.

PYRAMIDAL ARBOR-VITAE. Tall, slender, dense, dark green foliage. The best Arbor-Vitae grown. Price: 1½ to 2 ft., \$2.70 each; 2 for \$5.30.

JUNIPER

IRISH JUNIPER. Trees form dense slender cones of silvery green. Price: 18 to 24 in., \$2.40 each; 2 for \$4.70.

PFITZER'S JUNIPER. Broad, bushy with gray-green branches. Price: 12 to 15 in., \$2.50 each; 2 for \$4.90.

IDEAL. Scarlet blooms produced in immense compact clusters.

CECILE BRUNNER. The old "Sweet-heart Rose." Small, exquisitely formed bud and flower of light pink with yellow base. A splendid variety for borders and massing.

GOLDEN SALMON. Bud opens well in all kinds of weather. Flowers large, pure orange, borne in huge trusses.

Climbing Pillar and Trellis ROSES

The finest and most popular climbing Roses. All plants are healthy, strong, 2-year, field-grown stock.

EVERBLOOM- ING

- Cl. **Caledonia.** Large white, double flowers.
- Cl. **Condesa de Sastago.** Fiery copper to rich gold.
- Cl. **Etoile de Hollande.** Bright red.

The Ever-
Popular Red—
Etoile de
Hollande

BETTY UPRICHARD. Deep toned carmine with coppery orange blend; interior mostly delicate salmon-pink. Very choice.

CONDESA DE SASTAGO. The first fully double variety to carry the vivid colors of coppery red and yellow. Delicately perfumed; vigorous grower.

EDITOR McFARLAND. Clear brilliant pink. Perfect form; long lasting when cut.

ETOILE DE FRANCE. Well formed buds that develop into full open flowers of red and soft velvety crimson, shading to vivid cerise.

GENERAL MacARTHUR. Delicately formed, brilliant red blooms, fragrant. Vigorous grower and continuous bloomer.

LADY HILLINGDON. Apricot-yellow; profuse bloomer.

MARGARET McGREDY. One of the most popular red Roses. Almost always in bloom; a thrifty, vigorous grower.

McGREDY'S SCARLET. Vivid rose-red with blazing scarlet sheen; large, loosely formed flowers.

POINSETTIA. For sheer dazzling brilliancy we do not think there is any Rose to equal it. The well shaped, high-centered buds are made up of velvety textured petals in the brightest and most vivid shade of red.

RED RADIANCE. Plenty of long-stemmed, cerise-red, fragrant flowers. Very popular.

ROSLYN. Bud long pointed, deep orange. Flower large, semi-double, slightly fragrant, borne on long, strong stems. Vigorous grower, abundant bloomer.

TALISMAN. A multi-color Rose of orange, yellow and rose-red; a favorite variety.

BUNTINGS' FINER ROSES

They Will Bloom This Year

All hardy, field-grown plants, universal favorites; will provide a generous supply of choice cut flowers throughout late spring, summer and fall. **Price: Extra heavy, 2-year, field-grown plants, \$1.00 each; 3 for \$2.85; 6 for \$5.40; 10 for \$8.50.**
